WE SPEAK ABOUT QUALITY LIVING, IN ALL OF THE WORLD'S LANGUAGES.

CAME has catered to people's needs for over 60 years by using technology as a key to a quality life. Every project drives our innovation and focus to make people's lives as comfortable as possible. CAME is a company where skills and experience come into play. Its know how blends functionality and design continuously improving performance.

You are sure that you can rely on professionals able to transform our innovations into solutions, to create customized automation proposals integrated with the best connectivity and mobility technologies. CAME and its partners, together, to satisfy its increasingly demanding and heterogeneous customers for their culture and needs, in order to transform living spaces into more intelligent and safe places.

CAME

ALWAYS ONE-STEP-AHEAD

CAME is a market-leading brand that makes integrated automation solutions, video-entry, access control and parking systems for the public and private sectors.

The CAME Group boasts a series of highly specialized companies. Together they cover a large share of their market. The group delivers cutting-edge solutions for the residential, business and urban segments. Whether its home automation or heating control, road barriers and high-security bollards, or automatic doors and sectional industrial doors, CAME Group is a key player. Today CAME is set on one, distinct corporate vision, which makes the organization a cutting-edge technological partner.

RESIDENTIAL SOLUTIONS

BUSINESS SOLUTIONS

URBAN SOLUTIONS

RESIDENTIAL SOLUTIONS

We have gone beyond the simple idea of Home Automation, and taken the concept full circle. Now every device is fully integrated and connected into a system that improves people's lives. Today, we believe automation is at the heart of everything: to handle entrances and blinds, to control awnings and shutters, plus video intercom-entry systems, and burglar alarms.

BUSINESS SOLUTIONS

For every public venue, our offer provides the most sophisticated systems for controlling accesses and the most evolved solutions for burglar systems, video-intercom entry panels and barriers for parking facilities. Small and large companies, commercial enterprises, large buildings: CAME-branded Building-Automation operators provide control and safety in both small and large working environments.

URBAN SOLUTIONS

Our offer is geared to meet the different automation needs for urban planning and architectural scenarios. CAME solutions are engineered for managing safety and control in large works and for contributing to the planning of urban spaces so as to make them "Safe and Smart", as called for in today's fast-paced, metropolitan centres.

OUR WORLDWIDE NETWORK.

CAME Group operates the world over.

From its Treviso head office, home to the group's thriving core, CAME coordinates seven manufacturing plants and six R&D units. The group has branches in 21 countries and thanks to its business partners and distributors, it has operations in 118 countries.

The complexity involved in living spaces and in mobility flows require ever greater protection and security, plus enhanced reactive capacity and greater know-how that embrace an integrated and global vision of the world.

CAME is the technology partner for those projects that require integrated systems for improving the quality of our living space - whether private or public. Our products are made for controlling homes, managing urban venues and workplaces, of any kind, anywhere in the world.

The Group shares common goals, which go beyond single specializations. Thanks to the synergies among all the divisions and brands, CAME shares an operating approach that enriches in diversity.

TRAINING THAT MAKES A DIFFERENCE.

CAME TRAINING TEAM

Professionals have a tough job, which always requires upgrading and updating. Technical and product developments are not the only issues; the keys to success are a deep regulations knowledge and a strong relationship with customers, that are always more demanding for efficient services.

CAME proposes a series of initiatives geared for spreading knowledge about its products and services to let installers remain updated on new technologies and applicable laws and regulations. Our courses are extremely practical, giving our participants hands on knowledge which they can immediately apply.

A TEAM OF PROS

CAME offers to installers its own team of trainers, composed by technicians specialized in each product lines. All the trainers are internal staff members with great know-how and experience on projects, sales and technical issues. Each course provides the attending professionals with all is necessary for their job, so they can stay abreast of the latest market developments.

FOR INFORMATION AND REGISTRATION:

Send your request to
traininginternational@came.com

Call for more information at +39
0422 15 69 511 during business
hours.

Upon request, CAME will design and deliver courses, tailored around your needs, by setting up the learning path, course schedule and locations.

IN THE VALUE OF ACTIONS, THE DRIVE TO IMPROVE, ALWAYS. QUALITY INSIDE.

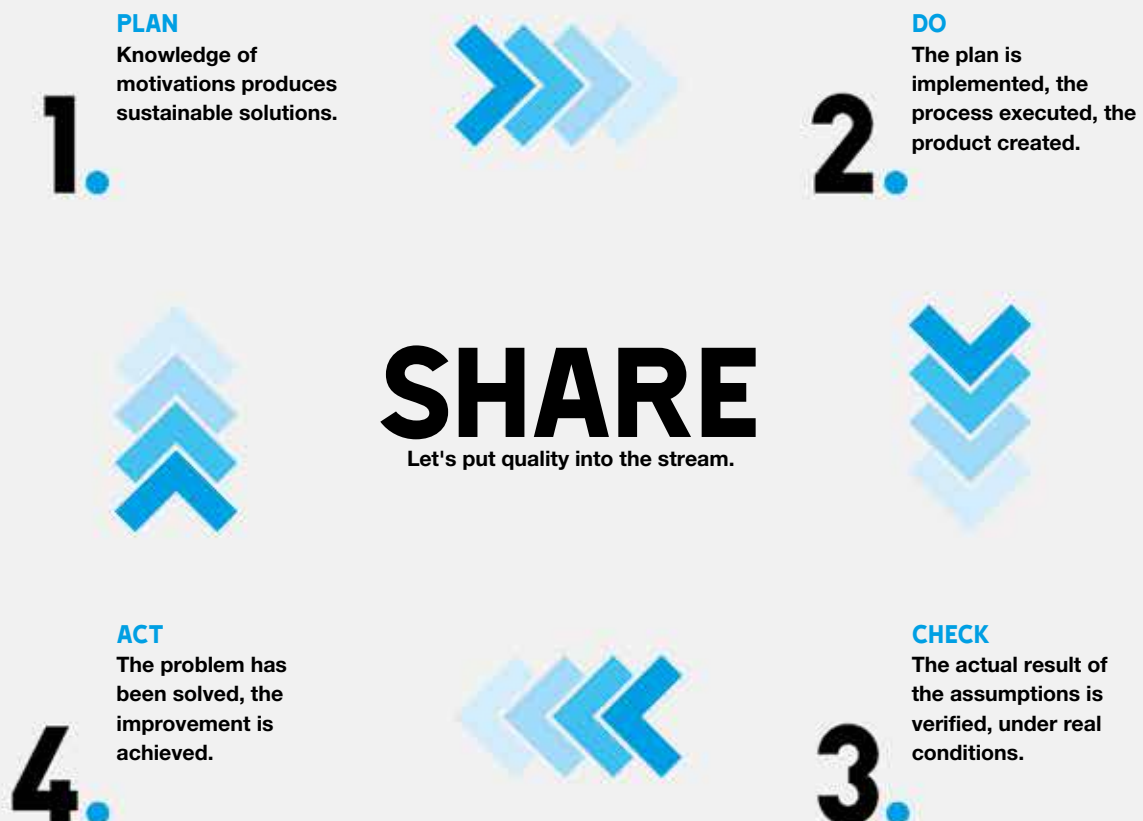

CAME's working methodology is based on the continuous improvement of production processes, security and relationships, but a great result can only be achieved if we all work in the same direction.

Q.I. comes from this awareness. - QUALITY INSIDE - a project that aims at involving CAME women and men and the professionals who use our products as a fundamental tool of their business.

The objectives are clear: we want to raise all the standards of production systems and make quality a widespread and shared value. To the traditional four phases that characterize all the production processes, Q.I. adds a continuous sharing process of the results obtained that aims to spread the positive practices and replicability of the standards achieved.

This scenario brings life to an organizational structure that makes for constant, fruitful and open dialogue among the fundamental areas of the CAME system:
Engineering - Production - Service.

An evolution process that takes shape in a new culture of quality: not only the guiding principle of each action, but the yardstick by which to measure its effectiveness.

SERVICE

ENGINEERING

TESTING ONE BY ONE

PRODUCTION

We implement a production model that allows to digitize each phase, integrating a complete testing methodology that involves 100% of our products and ensures product traceability and continuous improvement through constant monitoring of KPIs. In this context, Assistance and an always active Call Center service are of fundamental importance, as they allow us to increase our quality standards and to guarantee Customer Quality.

XTS is the video intercom with fully capacitive touch screen TFT display available in 7" and 5" versions. The minimalist design and the quality of the materials enhance its elegance.

The anti-reflective glass screen is equipped with OPTICAL BONDING technology that guarantees perfect viewing in all light conditions, as well as increased scratch and impact resistance.

It is provided with configurable quick commands, AUX for activation of auxiliary functions and a "Panic" button for emergency calls to the porter.

The version with integrated Wi-Fi allows you to manage the system and open the door from your smartphone.

MAIN FUNCTIONS

- Display with OPTICAL BONDING technology
- Unlimited calls to other receivers and smartphones and tablets
- Video answering service, stores up to 100, 10-second audio and video messages.
- Real-time display of IP camera images
- Audio and video recording during conversations
- Sending and receiving text messages from the concierge
- Self-inserting video of entry panels with cyclic selection
- Automatic opening function during business hours

CAME BPT

The CAME VIDEOENTRY App allows the user to remotely manage video door phone systems.

10 mm thick

Wall mounted
29 mm thick

Futura is the hands-free video intercom with a large 7" display and soft-touch browsing buttons.

It adapts to any residential or business environment thanks to 3 different models, ranging from the simplest X1 to the most advanced IP.

It has programmable auxiliary controls and a "Panic" button for emergency calls to the porter.

The IP version also allows you to view IP security cameras in real time.

MAIN FUNCTIONS

- Adjust/exclude ringtone, with alert LED when set to exclude mode
- Display saturation and brightness adjustment
- Self-inserting video of entry panels with cyclic selection
- Master/Slave function and video bouncing among receivers during simultaneous calls
- Key block for cleaning function
- Picture Capture function for storing images
- User interface with phonebook and AUX list

THE COMPLETE RANGE

| Code | Description | |

AGT is the handset video intercom with 5" LCD display which ensures brilliant colors and excellent video quality.

Featured by sleek lines and soft touch buttons with concealed indicator LEDs in a matte white finish.

Handset with essential lines for excellent ergonomics and magnetic hang-up that eliminates the risk of falling or incomplete contact.

The OSD function allows you to manage the image color, brightness and contrast.

MAIN FUNCTIONS

- 5" color display with OSD
- Handset with magnetic hang-up
- Concealed LED signal
- Soft-touch buttons
- Self-inserting video from entry panels
- Master/Slave function and video relaying between extensions function for simultaneous calls.

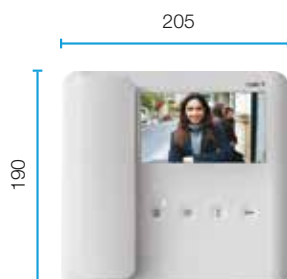

Version for the hearing impaired

Handset

5" display

Wall mounted
44.5 mm thick
(without 21 mm handset)

It includes a bracket for wall mounting on horizontal or vertical 503 box, on 506E box and Ø 60 mm round box.

Opale is the hands-free video intercom with 3.5" and 4.3" LCD touch screen display that guarantees brilliant colors and excellent video quality.

The central blue-backlit dial is for activating the numerous functions available.

Particularly suitable for apartment block settings thanks to the possibility of intercom calls and the "Panic" button for emergency calls to the porter.

MAIN FUNCTIONS

- Touch-screen display
- Handsfree audio
- Up to 8 intercom calls
- Up to 10 programmable auxiliary controls
- Automatic door-opener function with weekly scheduling
- Video answering service and video recording
- Messages displaying from the porter
- Self-inserting video of entry panels with cyclic selection
- Master/Slave function and video bouncing among receivers during simultaneous calls

THE COMPLETE RANGE

XVP is the touch screen video door entry panel with 7" display, ideal for large prestigious contexts with IP360 systems.

The 1.3 Mpx camera has a very wide view angle, 130° horizontal and 95° vertical, with a circular LED system that provides excellent illumination of the person and acts as a courtesy light.

The anti-reflective glass screen is equipped with OPTICAL BONDING technology for perfect viewing in all light conditions and increased scratch and impact resistance.

The entire surface is coated with 5 mm thick tempered glass that provides an IK08 protection rating against shocks and damage.

The graphics on the display can be customised with logos, images or text both in terms of the list of interiors and the appearance of the home page and screen-saver.

MAIN FUNCTIONS

- Full touch screen 7" display with Optical Bonding technology
- Display brightness 800 Nits
- 1.3 Mpx Camera
- Tempered glass thickness 5 mm
- IK08 shock protection rating
- Water and dust protection IP55
- Resistance to temperatures between -40°C and + 50°C
- Aluminum profiles corrosion resistance with 20 micron deep anodizing
- RTSP protocol to allow 24/7 video streaming
- Different access management modes
- Access control via RFID reader (also from third parties)
- Access control via Bluetooth with smartphone app
- Graphical interface customization

THE COMPLETE RANGE

| Code | Description | |
|---|---|--|
| Video intercom entry panels for IP360 systems | | |
| XVP F 840AA-0020 | <p>The video intercom entry panel with touch-screen display for IP360 system, recess-mounted.</p> <p>Monolithic entry panel in 5 mm thick tempered shatterproof glass, designed for recess mounting, with certified IK08 impact resistance. High brightness 7" anti-glare capacitive TFT touch screen with Optical Bonding technology, 1024 x 600 pixels resolution. Customizable multilingual graphic interface. Video camera sensor with HD 1280x720 resolution and HDR technology, plus built-in microprocessor for digital signal processing. "Ultra wide eye" wide-angle lens, aperture 130° horizontally and 95° vertically. Even illumination of the subject with 30 high-efficiency white LEDs and anti-glare diffuser. Equipped with RTSP protocol for 24/7 viewing of the camera video stream on CCTV systems. It allows access control via Bluetooth with App for smartphones or via RFID badge/tag thanks to the possibility of housing the MTMRfid access control module in the lower area (code 60020250), not supplied, or third party readers. Featuring a local 12V control for electric lock, auxiliary contact (1A, 30V max), inputs for door lock release button and for door status indication (programmable I/O), output for activation of outdoor cameras (programmable I/O). RJ45 port for network connection, PoE power supply (standard IEEE 802.3at POE+, 25.5W) or local 12-24V DC. Equipped with presence sensors to wake up the device from stand-by when someone approaches the entry panel and a brightness sensor to automatically adjust the display brightness according to the ambient brightness. On-board web server for configuring and updating firmware. Possibility of manually configuring different device parameters from the graphic interface. It ensures IP55 rating against water and dust.</p> |  |

Notes

MTM is the modular video door entry panel developed to offer a range of products suitable for all different needs. 32 different modules for infinite combinations!

The essential and refined design makes MTM the perfect entry panel on any surface and context, from a single home to large residential or office settings.

The anodized and satin-finished aluminum front panel guarantees brilliance and durability.

The HD resolution camera is equipped with HDR (High Dynamic Range) technology and high efficiency illuminator with anti-glare diffuser.

The basic frame can accommodate from 1 to 4 modules, but it is possible to connect several frames to create very complex devices.

MTM

Shock protection rating

Version for the hearing impaired

Water and dust protection

MTM VR

Shock protection rating

Version for the hearing impaired

Water and dust protection

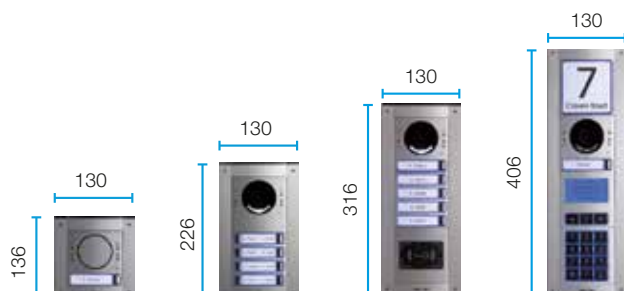

MAIN CHARACTERISTICS

- Satin finish anodized aluminum front panel
- IK07 shock protection rating
- Up to 98 calls with buttons
- Unlimited digital calls
- Innovative front panel without speaker holes
- Two-tone key backlighting (blue/white)
- Backlight intensity adjustment
- Direct connection to an analogue camera (X1 audio)
- Mini USB port for PC connection, software programming and firmware update

MTM VR

MAIN CHARACTERISTICS

- IK09 certified version against vandalism
- Zamak frame and cover
- Strong shatter-proof buttons
- Anti-burglary screws

Recess mounted
13 mm thick

Wall mounted
64 mm thick

DIGITAL DIALING

The display enables a directory of up to 7,200 names to be displayed. During programming, you can choose the most suitable search modes based on the number of users: a scrolling list or an alphabetical block search.

BUTTON COMPOSITION

On the call module you can add the front panel with the number of buttons you need. So you can forget about any caps and buttons, while keeping the composition flexible. Front panels with 2,3,4 and 8 buttons are available.

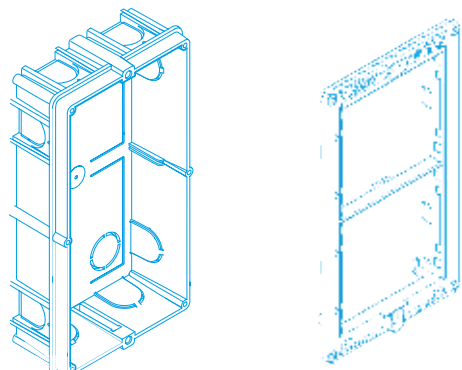

ACCESS CONTROL

The MTM range also includes 2 modules specifically for access control, one that is keypad operated and the other RDIF reader operated. Both modules are fitted with 2 on-board relay switches and 2 inputs for directly activating the relay switches.

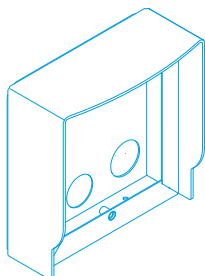

RECESS BOX

Available for the various entry panel versions, from 1 to 4 modules, depth 48.

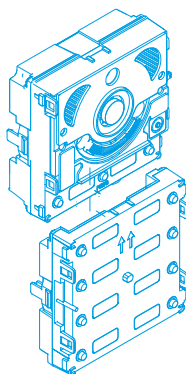

FRAME

Aluminum module-housing profile with cathophoresis treatment and black paint coat to ensure high levels of endurance against corrosion and rust. Compatible with BTicino, Comelit and Urmet recess-mounting boxes.

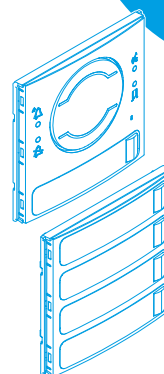

WALL-MOUNTING BOXES

A wall-mounting box is available if recess-mounting is unavailable.

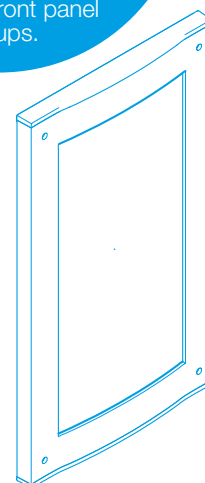

ELECTRONIC MODULES

Snap-in installation with no screw needed. Simple wiring among the modules. No chance of error thanks to the polarized connectors.

FRONT PANELS

Front panels ready for use, as they are pre-configured and need no additional buttons or caps. Outer side made of satin-finish aluminum with sturdy internal structure to make the standard outer panel IK07.

OUTER FRAME

The closing frame is sleek and essential, entirely made of satin-finished aluminum.

MTM IS QUICK AND EASY TO INSTALL

There are 5 components to an entry panel: the wall or recess-mounting box, the frame, the electronics module, the front panel and the external frame. Available in 2, 3, 4 and 8 button front panel set ups.

THE COMPLETE RANGE

| Code | Description | |
|--|--|---|
| Electronic video modules for X1 systems | | |
| MTMV/01 62030010 | <p>Intercom video modules for X1 systems.</p> <p>Electronic module with techno-polymer body and 2 call buttons with double, blue or white, namecard backlighting. PAL/NTSC video camera sensor with 680x512 pixel resolution and built-in microprocessor for digital signal processing. Wide-eye lens with 100° horizontal and 82° vertical opening and digital zoom adjustment. Even illumination of the subject with 2 high-efficiency white LEDs and anti-glare diffuser. Featuring a local control for electric lock, auxiliary contact (1A, 30V max), inputs for door lock release button and for door status indication (programmable I/O), output for activation of outdoor cameras (programmable I/O). The front is equipped with LEDs for visual indication of the system status. It allows to adjust the audio volume of the microphone and speaker and the activation time of the electric lock. Manual or PC programming via MINI USB connector on the front. To be completed with a video intercom front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection.</p> |  |
| Electronic video modules for XIP systems | | |
| MTMV/08 62030060 | <p>Intercom video modules for XIP systems.</p> <p>Electronic module with techno-polymer body and 2 call buttons with double, blue or white, namecard backlighting. PAL/NTSC 680x512 resolution video camera sensor with built-in microprocessor for digital signal processing. Wide-eye lens with 100° horizontal and 82° vertical opening and digital zoom adjustment. Even illumination of the subject with 2 high-efficiency white LEDs and anti-glare diffuser. Featuring a local control for electric lock, auxiliary contact (1A, 30V max), inputs for door lock release button and for door status indication (programmable I/O), output for activation of outdoor cameras (programmable I/O). Dip-switch for adapting the line impedance. The front is equipped with LEDs for visual indication of the system status. It allows to adjust the audio volume of the microphone and speaker and the activation time of the electric lock. Manual or PC programming via MINI USB connector on the front. To be completed with a video intercom front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection.</p> |  |
| Electronic video modules for IP360 systems | | |
| MTMV/IP 62030020 | <p>Intercom video modules for IP360 systems.</p> <p>Electronic module with techno-polymer body and 2 call buttons with double, blue or white, namecard backlighting. Video camera sensor with HD 1280x720 resolution and HDR technology, plus built-in microprocessor for digital signal processing. Ultra wide-eye grand angle lens with 130° horizontal and 95° vertical opening and digital zoom adjustment. Even illumination of the subject with 2 high-efficiency white LEDs and anti-glare diffuser. Featuring a local control for electric lock, auxiliary contact (1A, 30V max), inputs for door lock release button and for door status indication (programmable I/O), output for activation of outdoor cameras (programmable I/O). RJ45 port for network, PoE or local connection. The front is equipped with LEDs for visual indication of the system status. On-board web server for configuring and updating firmware. Can be manually programmed. To be completed with a video intercom front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection.</p> |  |
| Call modules for X1, XIP, IP360 and GSM systems | | |
| MTM8C 60020030 | <p>8-call module.</p> <p>Electronic module with techno-polymer body, 8 call buttons and 16 LEDs for the double blue or white backlit name tags. Adjustable color and brightness of the LEDs using the main modules. To finish off with button front-plate. When combined with the corresponding front panel, it guarantees IP54 water and dust protection.</p> |  |
| Calls module for 200 system | | |
| MTM8C/200 60020220 | <p>8-call module for 200 systems.</p> <p>Electronic module with techno-polymer body, 8 call buttons and 8 LEDs for the double blue or white backlit name tags. Compatible only with the MTM8C/200 call module for 200 systems. To finish off with button front-plate. When combined with the corresponding front panel, it guarantees IP54 water and dust protection.</p> |  |

THE COMPLETE RANGE

| Code | Description | |
|-------------------------------------|--|---|
| Electronic expansion modules | | |
| MTMKB 60020230 | Digital call keypad module Electronic module with techno-polymer body, with alphanumeric keypad with 12 buttons and double blue or white backlighting. Adjustable color and brightness of the LEDs using the main modules. Key 0 to 9 for entering the code and 2 other keys for the main functions: activate call and confirm access code. To finish off with digital call module front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| MTMDY 60020240 | Display module. Electronic module with techno-polymer body and blue or white backlit LCD display. Color and brightness adjustment from the menu or via the main modules. It allows you to display a phonebook with up to 7200 names and search in scroll mode or alphabetic block mode. It allows direct calling to the extensions through the central button. To finish off with display front module. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| MTMRFID 60020250 | RFID access control module. Electronic module with techno-polymer body equipped with RFID reader and 13.56 MHz Mifare technology, with blue or white backlighting. Adjustable color and brightness of the LEDs using the main modules. It allows the addition and removal of badges/tags directly from the reader itself or through a PC tool. It autonomously manages up to 6500 proximity cards. Access allowed/not allowed via buzzer and green/red signal LED. It can be installed either in stand alone mode or with the XIP or IP360 system via CAN bus. It is equipped with 2 relay contacts for door-openings and 2 inputs for directly activating the relays. To finish off with the RFID module front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| MTMMI 60020290 | Information module. Electronic module with techno-polymer body equipped with LED for the double blue or white backlighting of the information tag. It allows to adjust color and brightness by using the main modules. To finish off with information module front-plate. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| MTMMC 60020310 | Hidden module with front panel. Module with techno-polymer body and blind front panel made of natural anodized satin aluminum. Impact protection degree IK07 and water and dust protection degree IP54. |  |
| MTMNA 60020380 | Keypad module with access control. Electronic module with techno-polymer body, with alphanumeric keypad with 12 buttons and double blue or white backlighting. Adjustable color and brightness of the LEDs using the main modules. Key 0 to 9 for entering the code and 2 other keys for confirming. It autonomously manages up to 3500 numeric codes. Access allowed/not allowed via buzzer and green/red signal LED. It can be installed either in stand alone mode or with the XIP or IP360 system via CAN bus. It is equipped with 2 relay contacts for door-openings and 2 inputs for directly activating the relays. To finish off with the access control keypad module front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| MTMBFVS 60020390 | Hearing impaired and voice synthesis module Electronic module with techno-polymer body, equipped with a loudspeaker used for the playing back system voice messages. It has an audio-frequency induction system for hearing aids, in the "T" position. To finish off with the hearing impaired module. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |

MTMV/01 62030010

PLUS

- 2 call buttons with double blue or white backlight with intensity adjustment
- 2 controls for electric lock and auxiliary control (1A, 30V max)
- LED pictograms for status alerts: door opening, active communication, call in progress and system busy
- PAL/NTSC camera sensor with VGA 680x512 resolution
- Microprocessor for digital signal processing that improves performance in all conditions
- "Wide eye" lens with 100° aperture horizontally and 82° vertically and digital zoom adjustment
- High efficiency 4 LED illuminator with adjustable intensity and anti-glare diffuser
- Output for activation of external cameras (programmable I/O)
- Adjustable speaker, microphone and electric lock
- It can be manually programmed.
- Mini USB port for PC connection, software programming and firmware update
- To be completed with video intercom front panel to obtain IP54 rating against water and dust.

- H.264 video codec, G711 audio codec
- Local or PoE (Powered over Ethernet) power supply
- To be completed with video intercom front panel to obtain IP54 rating against water and dust.

TECHNICAL CHARACTERISTICS

| MODELS | MTMV/IP |
|-----------------------------------|------------------|
| Dimensions (mm) | 85 x 85 x 35 |
| Packaging dimensions (mm) | 156 x 57 x 110 |
| Power supply (V) | 12 ÷ 24 DC |
| PoE power supply | IEEE 802,3af (W) |
| Consumption in stand-by mode (mA) | 70 |
| Max. absorption (mA) | 250 |
| Operating temperature (°C) | -25 ÷ +55 |
| Protection rating (IP) | 54 |
| Video standard | H.264 |

MTM8C 60020030

PLUS

- Eight-button module
- Also programmable manually to handle 8, 4, 3 or 2 calls
- Blue or white LED for badge holders double backlighting.
- Adjustable color and brightness of the LEDs using the main modules.
- To be completed with push-buttons front panel to obtain IP54 rating against water and dust.

MTM8C/200 60020220

PLUS

- Eight-button module
- Blue LED for badge holders double backlighting.
- Compatible only with the Sistema 200 (MTMA/200) intercom module
- To be completed with push-buttons front panel to obtain IP54 rating against water and dust.

TECHNICAL CHARACTERISTICS

| MODELS | MTM8C | MTM8C/200 |
|-----------------------------------|----------------|----------------|
| Dimensions (mm) | 85 x 85 x 35 | 85 x 85 x 35 |
| Internal dimensions (mm) | - | - |
| Packaging dimensions (mm) | 156 x 57 x 110 | 156 x 57 x 110 |
| Power supply (V) | 10.7 - 18 DC | 14 - 18 AC |
| PoE power supply | - | - |
| Consumption in stand-by mode (mA) | - | 15 |
| Max. absorption (mA) | 25 | 15 |
| Operating temperature (°C) | -25 ÷ +55 | -25 ÷ +55 |
| Protection rating (IP) | 54 | 54 |

MTMBFVS

60020390

PLUS

- Hearing impaired and voice synthesis module
- Speaker for playback of multilingual voice messages related to the system
- It integrates an audio-frequency induction system for hearing aids, in the “T” position.
- Manual or PC tool programming
- To be completed with hearing aid module panel to obtain IP54 rating against water and dust.

MTMKB

60020230

PLUS

- Keypad module for digital call and access control code entering
- 12-button alphanumeric keyboard with double blue or white backlighting.
- Adjustable color and brightness of the LEDs using the main modules.
- Key 0 to 9 for entering the code
- 2 keys for main functions: call activation and access code confirmation
- To be completed with digital call module panel to obtain IP54 rating against water and dust.

TECHNICAL CHARACTERISTICS

| MODELS | MTMBFVS | MTMKB |
|-----------------------------------|----------------|----------------|
| Dimensions (mm) | 85 x 85 x 35 | 85 x 85 x 35 |
| Internal dimensions (mm) | - | - |
| Packaging dimensions (mm) | 156 x 57 x 110 | 156 x 57 x 110 |
| Power supply (V) | 10.7-18 DC | 10.7-18 DC |
| PoE power supply | - | - |
| Consumption in stand-by mode (mA) | 20 | 20 |
| Max. absorption (mA) | 55 | 55 |
| Operating temperature (°C) | -25 ÷ +55 | -25 ÷ +55 |
| Protection rating (IP) | 54 | 54 |

MTMDY 60020240

PLUS

- Blue or white backlight LCD display module
- Color and brightness adjustment from the menu or via the main modules.
- It allows viewing up to 7200 names in the address book.
- Search in scroll mode or alphabetic block mode.
- It allows direct calling to the extensions through the central button.
- To be completed with display module panel to obtain IP54 rating against water and dust.

MTMRFID 60020250

PLUS

- RFID access control module with Mifare technology (13.56 MHz)
- Blue or white backlighting
- Adjust color and brightness by using the main modules.
- Allows the addition and removal of badges/tags directly from the reader or through a PC tool.
- It independently manages up to 6,500 proximity keys.
- Sound and visual indication of the status (access allowed/denied) through buzzer and buttons backlighting (green/red).
- CAN BUS connector for connection to XiP or IP360 system
- 2 relay contacts for opening gates and 2 inputs for direct activation of the relays.
- To be completed with RFID module panel to obtain IP54 rating against water and dust.

TECHNICAL CHARACTERISTICS

| MODELS | MTMDY | MTMRFID |
|-----------------------------------|----------------|----------------|
| Dimensions (mm) | 85 x 85 x 35 | 85 x 85 x 35 |
| Internal dimensions (mm) | - | - |
| Packaging dimensions (mm) | 156 x 57 x 110 | 156 x 57 x 110 |
| Power supply (V) | 10.7-18 DC | 12 ÷ 24 DC |
| PoE power supply | - | - |
| Consumption in stand-by mode (mA) | 55 | 35 |
| Max. absorption (mA) | 250 | 90 |
| Operating temperature (°C) | -25 ÷ +55 | -25 ÷ +55 |
| Protection rating (IP) | 54 | 54 |

MTMMI 60020290

PLUS

- Information module
- Blue or white LED for information card backlighting
- Color and brightness adjustment using the main modules.
- To be completed with information module panel to obtain IP54 rating against water and dust.

MTMMC 60020310

PLUS

- Blind module
- Blind front panel made of natural anodized satin finish aluminum.
- IK07 impact resistance rating and water and IP54 water and dust protection rating.

TECHNICAL CHARACTERISTICS

| MODELS | MTMMI | MTMMC |
|----------------------------|----------------|---|
| Dimensions (mm) | 85 x 85 x 35 | 85 x 85 x 35 95 x 90 x 10 |
| Internal dimensions (mm) | - | 85 X 85 X 32 |
| Packaging dimensions (mm) | 156 x 57 x 110 | 156 x 57 x 110 |
| Power supply (V) | 10.7-18 DC | - |
| Max. absorption (mA) | 25 | - |
| Operating temperature (°C) | -25 ÷ +55 | - |
| Protection rating (IP) | - | 54 |
| Color | - | Natural anodised satin-finish aluminium |

PLUS

- Keypad module for access control.
- 12-button alphanumeric keyboard with double blue or white backlighting.
- Adjustable color and brightness of the LEDs using the main modules.
- Keys 0 to 9 for entering the code and 2 other keys for confirming.
- It manages up to 3500 numeric codes.
- Sound and visual indication of the status (access allowed/denied) through buzzer and buttons backlighting (green/red).
- CAN BUS connector for connection to XIP or IP360 system
- 2 relay contacts for opening gates and 2 inputs for direct activation of the relays.
- Manual or PC tool programming
- To be completed with access control front panel with keyboard module to obtain IP54 rating against water and dust.

TECHNICAL CHARACTERISTICS

| MODELS | MTMNA |
|-----------------------------------|----------------|
| Dimensions (mm) | 85 x 85 x 35 |

THE COMPLETE RANGE

| Code | Description | |
|--------------------------------------|--|---|
| Accessory modules | | |
| MTMGT 60020400 | Heating module with thermostat for MTM external units. Heater accessory that enables operation down to a temperature of -40 °C. To be combined with a built-in box (MTMSI2M, MTMSI3M or MTMSI4M). |  |
| MTMEX8C 60020590 | Module for the remote control of 8 call keys. Electronic board complete with 8 inputs for remote call buttons (maximum distance 1 m) and two outputs for backlighting. Equipped with 2 connectors for modular bus input and output. To be connected to MTM series electronic intercom or video intercom modules (except MTMA/200). |  |
| Video front panels | | |
| MTMFV0P 62030030 | Blind video intercom front panel made of natural anodized satin finish aluminum. With polycarbonate brace, it features pictograms to indicate the status of the system. To pair up with an intercom module. Shock protection rating IK07. |  |
| MTMFV1P 62030040 | 1-button video intercom front panel made of natural anodized satin finish aluminum. With polycarbonate brace, it features pictograms to indicate the status of the system and 1 button with name tag size 66x15 mm. To pair up with an intercom module. Shock protection rating IK07. |  |
| MTMFV2P 62030050 | 2-button video intercom front panel made of natural anodized satin finish aluminum. With polycarbonate brace, it is equipped with pictograms to indicate the status of the system and 2 double rows of buttons with 55x15 mm name tags. To pair up with an intercom module. Shock protection rating IK07. |  |
| Front panels for call modules | | |
| MTMF2P 60020110 | 2-button call module front panel made of natural anodized satin finish aluminum. With polycarbonate brace and 2 single row buttons with name tag size 66x15 mm. To pair with the MTM8C or MTM8C/200 call module. Shock protection rating IK07. |  |
| MTMF3P 60020120 | 3-button call module front panel made of natural anodized satin finish aluminum. With polycarbonate brace and 3 single row buttons with name tag size 66x15 mm. To pair with the MTM8C or MTM8C/200 call module. Shock protection rating IK07. |  |
| MTMF4P 60020130 | 4-button call module front panel made of natural anodized satin finish aluminum. With polycarbonate brace and 4 single row buttons with name tag size 66x15 mm. To pair with the MTM8C or MTM8C/200 call module. Shock protection rating IK07. |  |
| MTMF8P 60020140 | 8-button call module front panel made of natural anodized satin finish aluminum. With polycarbonate brace and 8 double row buttons with name tag size 55 x 15 mm. To pair with the MTM8C or MTM8C/200 call module. Shock protection rating IK07. |  |

THE COMPLETE RANGE

| Code | Description | |
|---|--|---|
| Front panels for electronic expansion modules | | |
| MTMFRFID 60020260 | RFID module front panel made of natural anodized satin finish aluminum. With polycarbonate brace. To pair with the MTMRFID module. Shock protection rating IK07. |  |
| MTMFKB 60020270 | Keypad module front panel made of natural anodized satin finish aluminum. With polycarbonate brace. To pair with the MTMKB module. Shock protection rating IK07. |  |
| MTMFDY 60020280 | Display module front panel made of natural anodized satin finish aluminum. With polycarbonate brace. To pair with the MTMDY module. Shock protection rating IK07. |  |
| MTMFMI 60020300 | Information module front panel made of natural anodized satin finish aluminum. With polycarbonate brace. To pair with the MTMMI module. Shock protection rating IK07. |  |
| MTMFNA 60020910 | Access control keypad module front panel made of natural anodized satin finish aluminum. With polycarbonate brace. To pair with the MTMNA module. Shock protection rating IK07. |  |
| MTMFBF 60020920 | Hearing impaired and voice synthesis module made of natural anodized satin finish aluminum. With polycarbonate brace. To pair with the MTMBFVS module. Shock protection rating IK07. |  |
| Frames | | |
| MTMTPI1M 60020170 | Frame and plaque for 1-module MTM. Black painted aluminum frame with cataphoresis finish ensures high resistance to corrosion and rust. Brushed anodized aluminum plaque. |  |
| MTMTPI2M 60020180 | Frame and plaque for 2-module MTM. Black painted aluminum frame with cataphoresis finish ensures high resistance to corrosion and rust. Brushed anodized aluminum plaque. |  |
| MTMTPI3M 60020340 | Frame and plaque for 3-module MTM. Black painted aluminum frame with cataphoresis finish ensures high resistance to corrosion and rust. Brushed anodized aluminum plaque. |  |
| MTMTPI4M 60020350 | Frame and plaque for 4-module MTM. Black painted aluminum frame with cataphoresis finish ensures high resistance to corrosion and rust. Brushed anodized aluminum plaque. |  |

THE COMPLETE RANGE

| Code | Description | |
|--|---|---|
| Accessories for recessed installation | | |
| MTMSI1M 60020150 | Recess-mounting box for 1-module MTM entry panels. Plastic recess-mounting box with 2 cable gland joints for installing side by side and with pre-punched holes for passing the cables. |  |
| MTMSI2M 60020160 | Recess-mounting box for 2-module MTM entry panels. Plastic recess-mounting box with 2 cable gland joints for installing side by side and with pre-punched holes for passing the cables. |  |
| MTMSI3M 60020320 | Recess-mounting box for 3-module MTM entry panels. Plastic recess-mounting box with 2 cable gland joints for installing side by side and with pre-punched holes for passing the cables. |  |
| MTMSI4M 60020330 | Recess-mounting box for 4-module MTM entry panels. Plastic recess-mounting box with 2 cable gland joints for installing side by side and with pre-punched holes for passing the cables. |  |
| MTMTI1M 60020490 | Rain flap for recess-mounting onto vertical, 1-module MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTI2M 60020500 | Rain flap for recess-mounting onto vertical, 2-module MTM entry panels. Painted metal sheeting rain ledge. |  |

THE COMPLETE RANGE

| Code | Description | |

| MTMTI3M 60020510 | Rain flap for recess-mounting onto vertical, 3-module MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTI4M 60020520 | Rain flap for recess-mounting onto vertical, 4-module MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTIIM2 60020530 | Rain flap for recess-mounting onto horizontal 2-module MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTIIM3 60020540 | Rain flap for recess-mounting onto horizontal 3-module MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTIIM4 60020550 | Rain flap for recess-mounting onto horizontal 4-module MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTI2M2 60020560 | Rain flap for recess-mounting onto 2 vertical and 2 horizontal MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTI3M2 60020570 | Rain flap for recess-mounting onto 3 vertical and 2 horizontal MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTI3M3 60020580 | Rain flap for recess-mounting onto 3 vertical and 3 horizontal MTM entry panels. Painted metal sheeting rain ledge. |  |

THE COMPLETE RANGE

| Code | Description | |
|--|--|---|
| Accessories for wall installation | | |
| MTMSP1M 60020190 | Box with rain flap for wall-mounting vertical 1-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP2M 60020200 | Box with rain flap for wall-mounting vertical 2-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP3M 60020360 | Box with rain flap for wall-mounting vertical 3-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP4M 60020370 | Box with rain flap for wall-mounting vertical 4-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP1M2 60020430 | Box with rain flap for wall-mounting horizontal 2-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP1M3 60020440 | Box with rain flap for wall-mounting horizontal 3-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP1M4 60020450 | Box with rain flap for wall-mounting horizontal 4-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP2M2 60020460 | Box with rain flap for wall-mounting 2 vertical and 2 horizontal MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP3M2 60020470 | Box with rain flap for wall-mounting 2 vertical and 3 horizontal MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP3M3 60020480 | Box with rain flap for wall-mounting 3 vertical and 3 horizontal MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |

THE COMPLETE RANGE

| Code | Description | |
|---|---|---|
| Adaptors for identification plates | | |
| MTMF2PAM 60020840 | 2 button adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with 2 call buttons and name tags size 42x10 mm. To finish off with the corresponding MTM8C or MTM8C/200 electronic call module. |  |
| MTMF3PAM 60020850 | 3 button adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with 3 call buttons and name tags size 42x10 mm. To finish off with the corresponding MTM8C or MTM8C/200 electronic call module. |  |
| MTMF4PAM 60020860 | 4 button adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with 4 call buttons and name tags size 42x10 mm. To finish off with the corresponding MTM8C or MTM8C/200 electronic call module. |  |
| MTMF8PAM 60020870 | 8 button adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with 8 call buttons and name tags size 42x10 mm. To finish off with the corresponding MTM8C or MTM8C/200 electronic call module. |  |
| MTMFKBAM 60020880 | Digital call keypad adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace, alpha-numeric keypad with 12 call buttons for digital calls. To finish off with the MTMKB electronic module. |  |
| MTMFDYAM 60020890 | Display adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace, with 3 keys for menu browsing. To finish off with the MTMDY module. |  |

THE COMPLETE RANGE

| Code | Description | |
|---|--|---|
| Adaptors for identification plates | | |
| MTMFRFIDAM 60020900 | RFID-INFO adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace, with RFID or INFO interchangeable tag. To finish off with the MTMRFID or MTMMI module. |  |
| MTMFNAAM 60020940 | Access control keypad adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace, with 12-key keypad for access control. To finish off with the MTMKB electronic module. |  |
| MTMFVOPAM 62030120 | Blind video adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace. To finish off with corresponding electronic video intercom module. |  |
| MTMFVIPAM 62030100 | Single button video adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with call button and name tag size 42x10 mm. To finish off with corresponding electronic video intercom module. |  |
| MTMFV2PAM 62030110 | Double button video adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with 2 call buttons and name tag size 42x10 mm. To finish off with corresponding electronic video intercom module. |  |

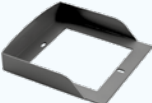

THE COMPLETE RANGE

| Code | Description | |
|-------------------------------------|---|---|
| VR video front | | |
| MTMFV0PVR 62030070 | Blind video entry phone front in painted Zamak alloy. Complete with support in polycarbonate, it is furnished with pictographs for indication of the system status. To be combined with a video entry phone module. IK09 grade impact protection. |  |
| MTMFV1PVR 62030080 | Blind video entry phone front in painted Zamak alloy. Complete with support in polycarbonate, it is furnished with pictographs for indication of the system status and 1 button with 42x10 mm name card holder. To be combined with a video entry phone module. IK09 grade impact protection. |  |
| MTMFV2PVR 62030090 | 2-button video entry phone front in painted Zamak alloy. Complete with support in polycarbonate, it is furnished with pictographs for indication of the system status and 2 buttons in two rows with 42x10 mm name card holder. To be combined with a video entry phone module. IK09 grade impact protection. |  |
| VR front panels for call modules | | |
| MTMF2PVR 60020660 | 2-button call module front in painted Zamak alloy. Complete with support in polycarbonate and 2 buttons in a single row with 42x10 mm name card holder. To be combined with a calls module (MTM8C or MTM8C/200). IK09 grade impact protection. |  |
| MTMF3PVR 60020670 | 3-button call module front in painted Zamak alloy. Complete with support in polycarbonate and 3 buttons in a single row with 42x10 mm name card holder. To be combined with a calls module (MTM8C or MTM8C/200). IK09 grade impact protection. |  |
| MTMF4PVR 60020680 | 4-button call module front in painted Zamak alloy. Complete with support in polycarbonate and 4 buttons in a single row with 42x10 mm name card holder. To be combined with a calls module (MTM8C or MTM8C/200). IK09 grade impact protection. |  |
| MTMF8PVR 60020690 | 8-button call module front in painted Zamak alloy. Complete with support in polycarbonate and 8 buttons in two rows with 42x10 mm name card holder. To be combined with a calls module (MTM8C or MTM8C/200). IK09 grade impact protection. |  |

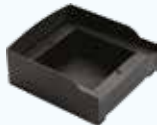

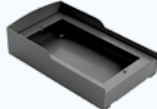

THE COMPLETE RANGE

| Code | Description | |
|--|---|---|
| VR front panels for electronic expansion modules | | |
| MTMFKBVR 60020700 | Keyboard module front in painted Zamak alloy. Complete with support in polycarbonate. To be combined with a MTMKB module. IK09 grade impact protection. |  |
| MTMFDYVR 60020710 | Display module front in painted Zamak alloy. Complete with support in polycarbonate. To be combined with a MTMDY module. IK09 grade impact protection. |  |
| MTMMCVR 60020730 | Blind module complete with VR front. Module with body in technopolymer. Complete with blind front in painted Zamak alloy. IK09 grade impact protection. |  |
| MTMFRFIDVR 60020720 | RFID – information module front in painted Zamak alloy. Complete with support in polycarbonate. To be combined with a MTMRFID or MTMMI module. IK09 grade impact protection and IP54 grade water and dust protection. |  |
| MTMFNAVR 60020930 | Access control keyboard module front in painted Zamak alloy. Complete with support in polycarbonate. To be combined with a MTMNA module. IK09 grade impact protection. |  |
| MTMFBFVR 60020950 | Hard of hearing and voice synthesis front module in painted Zamak alloy. Complete with polycarbonate bracket. To be combined with an MTMBFVS module IK09 impact protection rating. |  |

THE COMPLETE RANGE

| Code | Description | |
|--|---|---|
| VR frames | | |
| MTMTP1MVR 60020740 | Frame and plate for 1 module MTM VR. Aluminum frame with cataphoresis and black paint finish to ensure high levels of resistance to corrosion and rust. Plate in painted Zamak alloy furnished with special anti-burglary screws. |  |
| MTMTP2MVR 60020750 | Frame and plate for 2-module MTM VR. Aluminum frame with cataphoresis and black paint finish to ensure high levels of resistance to corrosion and rust. Plate in painted Zamak alloy furnished with special anti-burglary screws. |  |
| MTMTP3MVR 60020760 | Frame and plate for 3-module MTM VR. Aluminum frame with cataphoresis and black paint finish to ensure high levels of resistance to corrosion and rust. Plate in painted Zamak alloy furnished with special anti-burglary screws. |  |
| MTMTP4MVR 60020770 | Frame and plate for 4-module MTM VR. Aluminum frame with cataphoresis and black paint finish to ensure high levels of resistance to corrosion and rust. Plate in painted Zamak alloy furnished with special anti-burglary screws. |  |
| Recess-mounting accessories | | |
| MTMTI1M VR 840XC-0200 | Rain cover for recess-mounting onto vertical, 1-module MTM entry panels, VR finish. Rain cover made of steel sheet with double layer painting. |  |
| MTMTI2M VR 840XC-0210 | Rain cover for recess-mounting onto vertical, 2-module MTM entry panels, VR finish. Rain cover made of steel sheet with double layer painting. |  |
| MTMTI3M VR 840XC-0220 | Rain cover for recess-mounting onto vertical, 3-module MTM entry panels, VR finish. Rain cover made of steel sheet with double layer painting. |  |
| MTMTI4M VR 840XC-0230 | Rain cover for recess-mounting onto vertical, 4-module MTM entry panels, VR finish. Rain cover made of steel sheet with double layer painting. |  |

THE COMPLETE RANGE

| Code | Description | |
|--|--|---|
| Wall-hung accessories | | |
| MTMSP1M VR 840XC-0160 | Box with rain cover for wall mounting of vertical 1-module MTM entry panels, VR finish. Wall-mounting box with steel sheet rain cover featured by double-layer painting, holes for passing the cables and other holes for the wall-fastening screws. |  |
| MTMSP2M VR 840XC-0170 | Box with rain cover for wall mounting of vertical 2-module MTM entry panels, VR finish. Wall-mounting box with steel sheet rain cover featured by double-layer painting, holes for passing the cables and other holes for the wall-fastening screws. |  |
| MTMSP3M VR 840XC-0180 | Box with rain cover for wall mounting of vertical 3-module MTM entry panels, VR finish. Wall-mounting box with steel sheet rain cover featured by double-layer painting, holes for passing the cables and other holes for the wall-fastening screws. |  |
| MTMSP4M VR 840XC-0190 | Box with rain cover for wall mounting of vertical 4-module MTM entry panels, VR finish. Wall-mounting box with steel sheet rain cover featured by double-layer painting, holes for passing the cables and other holes for the wall-fastening screws. |  |

Water and dust protection

Recess mounted
2 mm thick

Wall mounted
47 mm thick

Easy to configure thanks to the "Quick Start" function, with wizard illustrated through the display of the device.

Equipped with mini USB port for PC connection, software programming and firmware update.

DIGITHA is the video door entry panel equipped with LCD display with 4 function keys that allow browsing through the graphic interface. Thanks to the refined design and the resistance guaranteed by the vandal protection, it is ideal for large installations based on the XIP system.

The camera with "wide eye" lens allows an aperture of 100° horizontally and 82° vertically.

It is equipped with adjustable zoom and 4-LED high efficiency illuminator with adjustable intensity.

It uses an NTSC/PAL camera sensor with 680 x 512 resolution and a microprocessor for digital signal processing that improves performance in all conditions.

FUNCTIONS FOR PEOPLE WITH HEARING OR VISION IMPAIRMENT

The main functions (door opening, active communication, call in progress and system busy) are indicated by audible and visual alerts via LEDs with pictograms.

MAIN FUNCTIONS

- Wide Eye lens and zoom camera
- LED lighting
- Alphanumeric keyboard with touch buttons
- Digital calls to 2600 users.
- Microphone and speaker volume adjustment
- Electric lock activation time adjustment
- Output for activation of external cameras
- Dip-switch for adapting the line impedance
- Body in stainless steel with double-finishing contrast treatment
- 2 finishes available: Metal in double finish or electropolished for better weather resistance

- Integrated RFID reader for opening through proximity key
- Open main door via number code
- AISI 304 stainless steel front plate with electric polishing finish.

Accessories

DDSI VR 60090540

Recess-mounting box for entry panels of the Digitha series.

Brushed stainless steel recess-mounting box with self-locking joints and pre-punched holes for passing the cables.

DDCI VR 61800380

Frame with rain flap for installing onto entry panels of the Digitha series.

Frame with brushed stainless steel sheeting rain flap for fitting on recess-mounted installations for greater rain protection.

DDSP VR 60090550

Box with rain flap for installing onto entry panels of the Digitha series.

Brushed stainless steel box with cable gland, wall plugs and fastening screws.

DDSP VR ELU 60090690

Box with rain flap for installing onto entry panels of the Digitha series; electric polishing finish.

Electric polished stainless steel wall-mounting box with cable gland, wall plugs and fastening screws. To pair with electric polished entry panels.

Recess mounted
2 mm thick

Wall mounted
25 mm thick

Thangram is the semi-modular video door entry panel that can be customized both in functional and aesthetic aspects.

The camera with "Wide Eye" lens allows an aperture of 100° horizontally and 82° vertically. It is equipped with adjustable zoom and 4-LED high efficiency illuminator with adjustable intensity.

It also uses a microprocessor for digital signal processing that improves performance in all conditions.

The technopolymer body is available in Greyhound or Metal finish.

The calling device can be configured in 4 different modes:

Classic push button panel with blue backlighting and name tag

Expandable digital selector switch

Access control via numerical code and RFID reader with integrated display

Access control via RFID reader

FUNCTIONS FOR PEOPLE WITH HEARING OR VISION IMPAIRMENT

The main functions (door opening, active communication, call in progress and system busy) are indicated by audible and visual alerts via LEDs with pictograms.

MAIN FUNCTIONS

- Wide Eye lens and zoom camera
- LED lighting
- Local control for electric lock
- Output for activation of external cameras
- Microphone and speaker volume adjustment
- Electric lock activation time adjustment
- Mini USB port for PC connection, software programming and firmware update.
- Water and dust protection IP54

THE COMPLETE RANGE

| Code | Description | |
|---|---|---|
| Video intercom entry panels for the X1 systems | | |
| DVC/01 62020010 | Semi-modular, monolithic video intercom entry panel for X1 systems. Body made of techno-polymer with Greyhound finish and with Aluminum colored front plaque. Equipped with PAL/NTSC camera sensor with 680x512 resolution and integrated microprocessor for digital signal processing. Wide-eye lens with 100° horizontal and 82° vertical opening and digital zoom adjustment. Equipped with local control for electric lock, inputs for door-opener button and for signaling the door status, and one output for activating external cameras. It allows to adjust the microphone and speaker audio and the electric lock activation time. Blue backlit name tag buttons. Up to 108 calls can be expanded with the extra DP/O push-button panel or with a keypad module for digital calls. IP54 water and dust protection. |  |
| DVC/01 ME 62020020 | Semi-modular, monolithic video intercom entry panel for X1 systems - Metal finish. Body made of techno-polymer and chromed, satin metal finish. Equipped with PAL/NTSC camera sensor with 680x512 resolution and integrated microprocessor for digital signal processing. Wide-eye lens with 100° horizontal and 82° vertical opening and digital zoom adjustment. Equipped with local control for electric lock, inputs for door-opener button and for signaling the door status, and one output for activating external cameras. It allows to adjust the microphone and speaker audio and the electric lock activation time. The front is equipped with LEDs for visual indication of the system status. Blue backlit name tag buttons. Up to 108 calls can be expanded with the extra DP/O push-button panel or with a keypad module for digital calls. Front plaque not included. IP54 water and dust protection. |  |
| Video intercom entry panels for the XIP systems | | |
| DVC/08 62020030 | Semi-modular, monolithic video intercom entry panel for XIP systems. Body made of techno-polymer with Greyhound finish, and with Aluminum colored front plaque. Equipped with PAL/NTSC camera sensor with 680x512 resolution and integrated microprocessor for digital signal processing. Wide-eye lens with 100° horizontal and 82° vertical opening and digital zoom adjustment. Equipped with local control for electric lock, inputs for door-opener button and for signaling the door status, and one output for activating external cameras. The front is equipped with LEDs for visual indication of the system status. It allows to adjust the microphone and speaker audio and the electric lock activation time. Blue backlit name tag buttons. Can be expanded with the additional DP/O keypad or with a keypad module for digital calls. IP54 water and dust protection. |  |
| DVC/08 ME 62020040 | Semi-modular, monolithic video intercom entry panel for XIP systems, Metal finish. Body made of techno-polymer and chromed, satin metal finish. Equipped with PAL/NTSC camera sensor with 680x512 resolution and integrated microprocessor for digital signal processing. Wide-eye lens with 100° horizontal and 82° vertical opening and digital zoom adjustment. Equipped with local control for electric lock, inputs for door-opener button and for signaling the door status, and one output for activating external cameras. It allows to adjust the microphone and speaker audio and the electric lock activation time. The front is equipped with LEDs for visual indication of the system status. Blue backlit name tag buttons. Can be expanded with the additional DP/O keypad or with a keypad module for digital calls. Front plaque not included. IP54 water and dust protection. |  |
| Video intercom entry panels for IP360 systems | | |
| DVC/IP ME 62020340 | Semi-modular, monolithic video intercom entry panel for IP360 systems. Body made of techno-polymer and chromed, satin metal finish. With a 1/4 CMOS camera sensor, 640x480 VGA resolution and built-in microprocessor for digital signal processing. Grand angle wide-eye lens with 100° horizontal and 82° vertical opening and digital zoom adjustment. Equipped with local control for electric lock, auxiliary contact (1 A, 24 V max), I/O programmable inputs for door lock release button and for door status alerts, I/O programmable output for activating external cameras. Terminals for network, PoE or local connection. The front is equipped with LEDs for visual indication of the system status. Blue backlit name-tag keys with adjustable brightness. On-board web server for configuring and updating firmware. Power supply POE or local 12 to 24 V DC. To finish off with front plaque. IP54 water and dust protection. |  |

DVC/01 62020010

PLUS

- Techno-polymer body with Greyhound finish
- Anodized aluminum plate with aluminum color
- PAL/NTSC camera sensor with VGA 680x512 resolution
- Up to 108 calls with DP/0 button module
- Up to 1250 calls in combination with DCOMBO module
- Up to 2600 digital calls with digital module

DVC/01 ME 62020020

PLUS

- Body made of techno-polymer with chrome satin metal finish
- Interchangeable anodized aluminum plate available in 4 colors (not included)
- PAL/NTSC camera sensor with VGA 680x512 resolution
- Up to 108 calls with DP/0 button module
- Up to 1250 calls in combination with DCOMBO module
- Up to 2600 digital calls with digital module

THE COMPLETE RANGE

| Code | Description | |
|----------------------------------|---|---|
| Accessories | | |
| DSI 60090050 | Recess-mounting box for entry panels of the Thangram series. Plastic recess-mounting box with self-locking joints and pre-punched holes for passing the cables. To finish off the installation with the DCI or DCI ME frame. Can be used with any entry panel of the Thangram series or extra DP/O button panel. |  |
| DPF AL 60090060 | Anodized aluminum front plaque, Aluminum finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/O button panel. |  |
| DPF NF 60090070 | Anodized aluminum front plaque, Matt Black finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/O button panel. |  |
| DP/O 60090080 | Extra button panel for intercom and video intercom entry panels of the Thangram series. Set up to house, maximum 10, single and double overhang buttons and maximum 5, double height buttons. Equipped with 20 blue LEDs for backlighting the name tag keys. To finish off with a front plaque. IP54 water and dust protection. |  |
| DPF ME 60090530 | Anodized aluminum front plaque, Metal finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/O button panel. |  |
| DPF RS 60090560 | Anodized aluminum front plaque, Dark Red RAL 3011 finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/O button panel. |  |
| DPF BL 60090570 | Anodized aluminum front plaque, Ocean Blue RAL 5020 finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/O button panel. |  |
| DPF BI 60090580 | Anodized aluminum front plaque, White finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/O button panel. |  |
| DPF VD 60090590 | Anodized aluminum front plaque, Turquoise Mint RAL 6033 finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/O button panel. |  |
| DPF AR 60090610 | Anodized aluminum front plaque, Orange Yellow RAL 2000 finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/O button panel. |  |

THE COMPLETE RANGE

| Code | Description | |
|----------------------------------|--|---|
| Accessories | | |
| DPF NL 60090620 | Anodized aluminum front plaque, Deep Black RAL 9005 glossy finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP0 button panel. |  |
| DSM 60090630 | Steel recess-mounting box for entry panels of the Thangram series. Galvanized steel recess-mounting box with pre-punched holes for passing the cables. To finish off the installation with the DCI or DCI ME frame. Can be used with any entry panel of the Thangram series or extra DP0 button panel. |  |
| DCI 61800010 | Frame for recess-mounting entry panels of the Thangram series; Greyhound finish. Satin chrome plated plastic frame; Greyhound finish. To use with the DSI recess-mounting box and with any entry panel of the Thangram series; with Greyhound finish and extra DP0 button panel. |  |
| DCI ME 61800020 | Frame for recess-mounting entry panels of the Thangram series; Metal finish. Satin chrome plated plastic frame; Metal finish. To use with the DSI recess-mounting box and with any entry panel of the Thangram series; with Metal finish and extra DP0 button panel. |  |
| DPS 61800030 | Single button with name tag. Basic set with transparent polycarbonate anti-UV outer cover. Size of the name tag 53x13 mm. |  |
| DPH 61800040 | Double height single button with name tag. Basic set with transparent polycarbonate anti-UV outer cover. Size of the name tag 53x33 mm. |  |
| DPD 61800050 | Double overhang button with name tag. Basic set with transparent polycarbonate anti-UV outer cover. Size of the name tag 25x13 mm. |  |
| DTS 61800060 | Single cap; Greyhound finish. Techno-polymer cap. To use with any entry panel of the Thangram series; with Greyhound finish and extra DP0 button panel. |  |
| DTS ME 61800070 | Single cap; Metal finish. Techno-polymer cap plated in Metal satin chrome. To use with any entry panel of the Thangram series; with Metal finish and extra DP0 button panel. |  |
| DTH 61800080 | Double-height cap; Greyhound finish. Techno-polymer cap. To use with any entry panel of the Thangram series; with Greyhound finish and extra DP0 button panel. |  |

THE COMPLETE RANGE

| Code | Description | |
|----------------------------------|---|---|
| Accessories | | |
| DTH ME 61800090 | Double-height cap; Metal finish. Techno-polymer cap plated in Metal satin chrome. To use with any entry panel of the Thangram series; with Metal finish and extra DP0 button panel. |  |
| DRFID 61800290 | RFID reader module for proximity cards to use with entry panels of the Thangram series. With antenna and decoding circuit and Mifare technology (13.56 MHz). It is fitted onto the entry panel (it takes up 2 single buttons). For use with any Thangram series intercom entry panel system and video intercom entry panel system (not applicable to the DP0 additional push-button panel). |  |
| DNA 61800320 | Keypad module for digital call and access control to use with entry panels of the Thangram series. Greyhound finish. Keypad module with 12 PC/ABS techno-polymer buttons. Key 0 to 9 for entering the code and 2 other keys for the main functions: activate call and confirm access code. It is fitted onto the entry panel (it takes up 3 single buttons). For use with any intercom and video intercom entry panel of the Thangram series; with Greyhound finish. The extra DP0 button panel does not apply. |  |
| DNA ME 61800360 | Keypad module for digital call and access control to use with entry panels of the Thangram series. Metal finish. 12-button keypad module made of PC/ABS techno-polymer with Metal satin chrome plating. Key 0 to 9 for entering the code and 2 other keys for the main functions: activate call and confirm access code. It is fitted onto the entry panel (it takes up 3 single buttons). To use with any intercom and video intercom entry panel of the Thangram series; with Metal finish. The extra DP0 button panel does not apply. |  |
| DTP 61800390 | Rain flap for installing on wall onto entry panels of the Thangram series. Painted steel sheeting rain flap. To use with any entry panel of the Thangram series or with the extra DP0 button panel. |  |
| DMI 61800440 | Information module for generic alerts. Basic set with transparent polycarbonate anti-UV outer cover. Can be used with any entry panel of the Thangram series or extra DP0 button panel. Cannot be used as a call button. Information tag dimensions: 53x33 mm. |  |
| DBAD10 61800460 | Proximity card with Mifare technology. To use for interacting with RFID readers. The package contains 10 pieces. |  |
| DTAG5 61800470 | Keyfob proximity device with Mifare technology. To use for interacting with RFID readers. The package contains 5 pieces. |  |
| DCOMBO 61800760 | Keypad module for digital calls and access control with RFID reader and built-in display. To use with entry panels of the Thangram series. Keypad module with soft touch buttons, integrated LCD display and proximity key reader. It is installed in the entry panel and occupies the space of 4 single keys. It is for searching for users in the address book and for enabling access control via a numeric code or proximity key. It allows you to store up to 1250 names in the address book. For use with any Thangram series intercom entry panel system and video intercom entry panel system (not applicable to the DP0 additional push-button panel). |  |

Water and dust protection

Recess mounted
7 mm thick

Wall mounted
30 mm thick

Supplied with wall bracket, it can also be recess-mounted thanks to the optional box and frame.

LITHOS is the video door entry panel dedicated to small residential environments, characterized by its monolithic design and brushed stainless steel AISI 316L finish.

The call module can accommodate from 1 to 4 buttons with blue backlight and name tag.

The camera with "Wide Eye" lens allows an aperture of 94° horizontally and 77° vertically. It is equipped with adjustable zoom and 4-LED high efficiency illuminator with adjustable intensity.

It also uses a microprocessor for digital signal processing that improves performance in all conditions.

Programming can be performed either directly on the device or via software.

MAIN FUNCTIONS

- Wide Eye lens and zoom camera
- LED lighting
- 1 to 4 backlit call buttons
- Intercom function
- Microphone and speaker volume adjustment
- Electric lock activation time adjustment
- AISI 316L brushed stainless steel finish
- Water and dust protection IP54

| LSI 60090640 | Recess-mounting box for fitting entry panels of the Lithos series. Plastic recess-mounting box with pre-punched holes for passing cables. Fit the LCI frame to finish off the installation. |  |

DISCOVER THE SOLUTIONS FOR PARKING FACILITIES

PKE

Ideal solution for large parking facilities with special configuration requirements

PKM

Ideal solution for small and medium sized parking facilities

Find out more on came.com/parkare

PS

Entry-level solution for the management of small installations with transponder-token or barcode systems

LINCE 6

The software platform for management, monitoring and real time remote reporting via smartphone, tablet or PC. Multi-parking management with users and subscriptions centralisation, for validity on all systems.

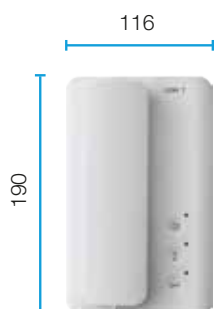

Datacenter with service continuity and servers automatic scalability. 360° assistance and service

AUDIO ENTRY RECEIVER

94 AGT
100 PERLA

Handset

Wall mounted
44.5 mm thick
(without 21 mm handset)

Compatible for wall installation on 503 box (horizontal or vertical) and on round box Ø 60 mm.

AGT is the handset intercom characterized by the essential lines and ergonomic handset with magnetic hang-up that eliminates the risk of falling or incomplete contact.

Soft touch buttons for the X1 version, traditional mechanical buttons in the 200 version, with white indicator LEDs. In the EVO version, up to 6 intercom calls can be programmed.

MAIN FUNCTIONS

- Handset with magnetic hang-up
- Concealed LED signal
- AUX2 for auxiliary functions and call to the porter
- Automatic door-opener function

THE COMPLETE RANGE

| Code | Description | |
|---|---|---|
| Handset intercoms for X1 systems | | |
| AGT A 840CA-0040 | <p>Handset intercom with soft-touch buttons, 1 programmable AUX button, white. Suitable for multi-user systems as it allows up to 6 intercom calls and the sending of the "Panic" signal for the porter to call for help. It allows managing the "gate opener" function and displays the status of the gate controlled by means of a signaling LED. Prearranged for wall installation on horizontal and vertical 503 box and on round Ø 60 mm box. Compatible with the X1 and XIP systems.</p> |  |
| Entry phone with handset for 200 systems | | |
| AGT A200 840CA-0010 | <p>White handset entry phone.</p> <p>Wall-mounted intercom with 1 button for door opening. Prearranged for wall installation on horizontal and vertical 503 box and on round Ø 60 mm box. Compatible with 200 system.</p> |  |
| AGT A200 EVO 840CA-0020 | <p>Handset intercom with 2 AUX keys and 4 keys for intercom calls, white.</p> <p>With lever for adjusting/excluding the ringer.</p> <p>Wall-mounted intercom with 3 main buttons for door opening and 2 programmable auxiliary controls. Equipped with side lever for ringtone adjustment/exclusion (with indicator LED when excluded). Suitable for multi-user systems as it allows up to 6 intercom calls (4 using the dedicated buttons plus 2 using the AUX buttons, if free from other functions). Configurable by means of a dedicated jumper to manage the conversation privacy. Prearranged for wall installation on horizontal and vertical 503 box and on round Ø 60 mm box. Compatible with 200 system.</p> |  |
| AGT A200 K 840CA-0030 | <p>Handset intercom with 2 AUX keys - white.</p> <p>With lever for adjusting/excluding the ringer.</p> <p>Wall-mounting intercom with 3 main buttons for door opening and two auxiliary controls, one of which is a switch with latch for automation control with gate status indication. Equipped with side lever for ringtone adjustment/exclusion (with indicator LED when excluded). Prearranged for wall installation on horizontal and vertical 503 box and on round Ø 60 mm box. Compatible with 200 system.</p> |  |
| Accessories | | |
| AGT KT A 840XC-0140 | <p>Desktop stand for intercom indoor receivers of the AGT A, Agata Audio and Perla Audio series.</p> <p>Plexiglass 10 mm-thick stand, supplied with white RJ45 cable and terminal board cover with PMMA laminate - metallic gray.</p> |  |

AGT A

840CA-0040

PLUS

- Door-opener soft-touch button
- Programmable auxiliary soft-touch button
- Soft-touch button for ringtone adjustment/exclusion with LED indicator when excluded
- Latch function (gate opener) for checking the status of external automations
- Automatic door-opener function

AGT A EVO

840CA-0050

PLUS

- Suitable for multi-user systems with 6 Intercom calls
- Door-opener soft-touch button
- Programmable auxiliary soft-touch button
- Soft-touch button for ringtone adjustment/exclusion with LED indicator when excluded
- Call forwarding to other extension
- "Panic" control for calling the porter
- Latch function (gate opener) for checking the status of external automations
- Automatic door-opener function

| Accessories | |
| AGT KT A 840XC-0140 | Desktop stand for intercom indoor receivers of the AGT A, Agata Audio and Perla Audio series. Plexiglass 10 mm-thick stand, supplied with white RJ45 cable and terminal board cover with PMMA laminate - metallic gray. |

Perla is the hands-free wall-mounting intercom, characterized by the central blue backlit ring nut that allows to activate the many functions available.

MAIN FUNCTIONS

- Hands-free audio
- Program melodies depending on the type of call
- Adjust/exclude ringtone, with alert LED when set to exclude mode

Handsfree
audio

A bracket is included for wall installation on 503 box (vertical) and round box Ø 60 mm.

THE COMPLETE RANGE

indoor curtains

AUDIO ENTRY PANEL

108 MTM
132 DIGITHA
136 THANGRAM
144 LITHOS

MTM is the modular door entry panel developed to offer a range of products suitable for all different needs.

32 different modules for infinite combinations!

The essential and refined design makes MTM the perfect entry panel on any surface and context, from a single home to large residential or office settings.

The anodized and satin-finished aluminum front panel guarantees brilliance and durability.

The basic frame can accommodate from 1 to 4 modules, but it is possible to connect several frames to create very complex devices.

MAIN CHARACTERISTICS

- Satin finish anodized aluminum front panel
- IK07 shock protection rating
- Up to 98 calls with buttons
- Unlimited digital calls
- Innovative front panel without speaker holes
- Two-tone key backlighting (blue/white)
- Backlight intensity adjustment
- Direct connection to an analogue camera (X1 audio)
- Mini USB port for PC connection, software programming and firmware update

MTM

Shock protection rating

Version for the hearing impaired

Water and dust protection

MTM VR

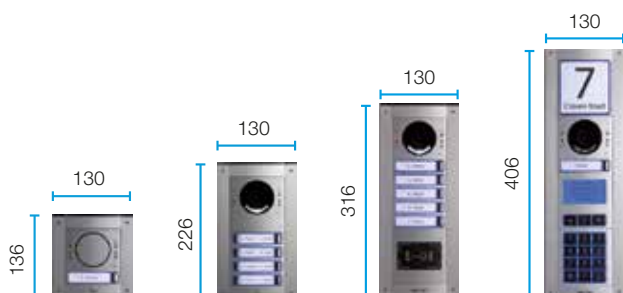

Shock protection rating

Version for the hearing impaired

Water and dust protection

Recess mounted
13 mm thick

Wall mounted
64 mm thick

MTM VR

MAIN CHARACTERISTICS

- IK09 certified version against vandalism
- Zamak frame and cover
- Strong shatter-proof buttons
- Anti-burglary screws

DIGITAL DIALING

The display enables a directory of up to 7,200 names to be displayed. During programming, you can choose the most suitable search modes based on the number of users: a scrolling list or an alphabetical block search.

BUTTON COMPOSITION

On the call module you can add the front panel with the number of buttons you need. So you can forget about any caps and buttons, while keeping the composition flexible. Front panels with 2,3,4 and 8 buttons are available.

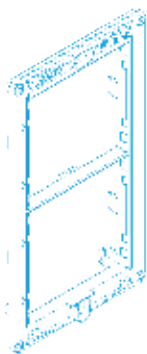

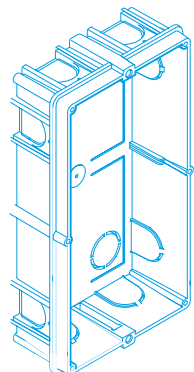

ACCESS CONTROL

The MTM range also includes 2 modules specifically for access control, one that is keypad operated and the other RDIF reader operated. Both modules are fitted with 2 on-board relay switches and 2 inputs for directly activating the relay switches.

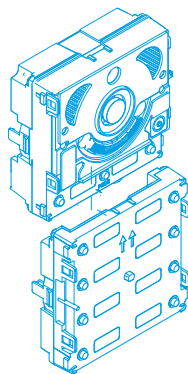

RECESS BOX

Available for the various entry panel versions, from 1 to 4 modules, depth 48.

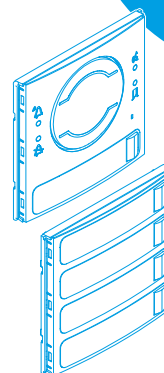

FRAME

Aluminum module-housing profile with cathoresis treatment and black paint coat to ensure high levels of endurance against corrosion and rust. Compatible with BTicino, Comelit and Urmet recess-mounting boxes.

ELECTRONIC MODULES

Snap-in installation with no screw needed. Simple wiring among the modules. No chance of error thanks to the polarized connectors.

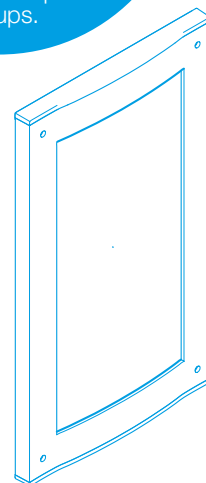

FRONT PANELS

Front panels ready for use, as they are pre-configured and need no additional buttons or caps. Outer side made of satin-finish aluminum with sturdy internal structure to make the standard outer panel IK07.

MTM IS QUICK AND EASY TO INSTALL

There are 5 components to an entry panel: the wall or recess-mounting box, the frame, the electronics module, the front panel and the external frame. Available in 2, 3, 4 and 8 button front panel set ups.

OUTER FRAME

The closing frame is sleek and essential, entirely made of satin-finished aluminum.

WALL-MOUNTING BOXES

A wall-mounting box is available if recess-mounting is unavailable.

THE COMPLETE RANGE

| Code | Description | |
|--|--|---|
| Electronic audio modules for X1 systems | | |
| MTMA/01 60020010 | Intercom module for X1 systems. Electronic module with techno-polymer body and 2 call buttons with double, blue or white, namecard backlighting. Featuring a local control for electric lock, auxiliary contact (1A, 30V max), inputs for door lock release button and for door status indication (programmable I/O), output for activation of outdoor cameras (programmable I/O). With input for outdoor analog video camera. The front is equipped with LEDs for visual indication of the system status. It allows to adjust the audio volume of the microphone and speaker and the activation time of the electric lock. Manual or PC programming via MINI USB connector on the front. To finish off with intercom front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| MTMAL/01 60020020 | Lite intercom module for X1 systems. Electronic module with techno-polymer body and 2 call buttons with blue name tag backlighting. With local control for electric lock, input for door lock release button, programmable I/O auxiliary output, programmable I/O output for enabling outdoor video cameras. It allows to adjust the audio volume of the microphone and speaker and the activation time of the electric lock. Manual programming. To finish off with lite intercom front panel. Only for creating push button entry panels and can power MTMRFID, MTMNA access control modules, and only if configured in Master mode. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| Electronic audio modules for XIP systems | | |
| MTMA/08 60020420 | Intercom modules for XIP systems. Electronic module with techno-polymer body and 2 call buttons with double, blue or white, namecard backlighting. Featuring a local control for electric lock, auxiliary contact (1A, 30V max), inputs for door lock release button and for door status indication (programmable I/O), output for activation of outdoor cameras (programmable I/O). Dip-switch for adapting the line impedance. The front is equipped with LEDs for visual indication of the system status. It allows to adjust the audio volume of the microphone and speaker and the activation time of the electric lock. Manual or PC programming via MINI USB connector on the front. To be completed with a video intercom front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| Electronic audio modules for IP360 systems | | |
| MTMA/IP 60020040 | Intercom modules for IP360 systems. Electronic module with techno-polymer body and 2 call buttons with double, blue or white, namecard backlighting. Featuring a local control for electric lock, auxiliary contact (1A, 30V max), inputs for door lock release button and for door status indication (programmable I/O), output for activation of outdoor cameras (programmable I/O). RJ45 port for network, PoE or local connection. The front is equipped with LEDs for visual indication of the system status. On-board web server for configuring and updating firmware. Can be manually programmed. To be completed with a video intercom front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |

THE COMPLETE RANGE

| Code | Description | |
|--|---|---|
| Electronic audio modules for GSM systems | | |
| MTMA/GSM 60020410 | Intercom modules for GSM systems. Electronic module with techno-polymer body and 2 call buttons with double, blue or white, namecard backlighting. Slot for on-board micro SIM (micro SIM not included). It can manage up to 1000 telephone numbers and remotely opens the gateway via a telephone ring. Featuring a local electric lock control, auxiliary contact (1A, 30V max), 2 inputs for call 1 and 2 (programmable I/O). The front is equipped with LEDs for visual indication of the system status. It allows to adjust the audio volume of the microphone and speaker and the activation time of the electric lock. Manual programming via SMS or from PC through the MINI USB connector on the front. Supplied with antenna and 2 m cable for antenna remote control. To finish off with intercom front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| Electronic audio modules for 200 systems | | |
| MTMA/200 60020210 | Intercom modules for 200 systems. Electronic module with techno-polymer body and 2 call buttons with blue name tag backlighting. It allows to adjust the audio volume of the microphone and speaker. Expandable only with the MTM8C/200 call module for 200 systems. To finish off with lite intercom front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| Call modules for X1, XIP, IP360 and GSM systems | | |
| MTM8C 60020030 | 8-call module. Electronic module with techno-polymer body, 8 call buttons and 16 LEDs for the double blue or white backlit name tags. Adjustable color and brightness of the LEDs using the main modules. To finish off with button front-plate. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| Calls module for 200 system | | |
| MTM8C/200 60020220 | 8-call module for 200 systems. Electronic module with techno-polymer body, 8 call buttons and 8 LEDs for the double blue or white backlit name tags. Compatible only with the MTM8C/200 call module for 200 systems. To finish off with button front-plate. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |

THE COMPLETE RANGE

| Code | Description | |
|-----------------------------------|--|---|
| Electronic expansion modules | | |
| MTMKB 60020230 | Digital call keypad module Electronic module with techno-polymer body, with alphanumeric keypad with 12 buttons and double blue or white backlighting. Adjustable color and brightness of the LEDs using the main modules. Key 0 to 9 for entering the code and 2 other keys for the main functions: activate call and confirm access code. To finish off with digital call module front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| MTMDY 60020240 | Display module. Electronic module with techno-polymer body and blue or white backlit LCD display. Color and brightness adjustment from the menu or via the main modules. It allows you to display a phonebook with up to 7200 names and search in scroll mode or alphabetic block mode. It allows direct calling to the extensions through the central button. To finish off with display front module. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| MTMRFID 60020250 | RFID access control module. Electronic module with techno-polymer body equipped with RFID reader and 13.56 MHz Mifare technology, with blue or white backlighting. Adjustable color and brightness of the LEDs using the main modules. It allows the addition and removal of badges/tags directly from the reader itself or through a PC tool. It autonomously manages up to 6500 proximity cards. Access allowed/not allowed via buzzer and green/red signal LED. It can be installed either in stand alone mode or with the XIP or IP360 system via CAN bus. It is equipped with 2 relay contacts for door-openings and 2 inputs for directly activating the relays. To finish off with the RFID module front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| MTMMI 60020290 | Information module. Electronic module with techno-polymer body equipped with LED for the double blue or white backlighting of the information tag. It allows to adjust color and brightness by using the main modules. To finish off with information module front-plate. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| MTMMC 60020310 | Hidden module with front panel. Module with techno-polymer body and blind front panel made of natural anodized satin aluminum. Impact protection degree IK07 and water and dust protection degree IP54. |  |
| MTMNA 60020380 | Keypad module with access control. Electronic module with techno-polymer body, with alphanumeric keypad with 12 buttons and double blue or white backlighting. Adjustable color and brightness of the LEDs using the main modules. Key 0 to 9 for entering the code and 2 other keys for confirming. It autonomously manages up to 3500 numeric codes. Access allowed/not allowed via buzzer and green/red signal LED. It can be installed either in stand alone mode or with the XIP or IP360 system via CAN bus. It is equipped with 2 relay contacts for door-openings and 2 inputs for directly activating the relays. To finish off with the access control keypad module front panel. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |
| MTMBFVS 60020390 | Hearing impaired and voice synthesis module Electronic module with techno-polymer body, equipped with a loudspeaker used for the playing back system voice messages. It has an audio-frequency induction system for hearing aids, in the "T" position. To finish off with the hearing impaired module. When combined with the corresponding front panel, it guarantees IP54 water and dust protection. |  |

MTMA/01

60020010

PLUS

- 2 call buttons with double blue or white backlight with intensity adjustment
- 2 controls for electric lock and auxiliary control (1A, 30V max)
- Output for activation of external cameras (programmable I/O)
- Control for adjusting the sound of the microphone, the speaker and the electric lock activation time.
- Video input for outdoor analog camera
- Mini USB port for PC connection, software programming and firmware update
- LED pictograms for status alerts: door opening, active communication, call in progress and system busy
- To be completed with intercom front panel to obtain IP54 rating against water and dust.

MTMAL/01

60020020

PLUS

- 2 call buttons with blue backlight
- 2 controls for electric lock and auxiliary control (1A, 30V max)
- Output for activation of external cameras (programmable I/O)
- Control for adjusting the sound of the microphone, the speaker and the electric lock activation time.
- Video input for outdoor analog camera
- Manual programming.
- It allows the creation of entry panel with buttons only
- It can power access control modules (MTMRFID, MTMNA) only when configured in Master mode
- To be completed with lite intercom front panel to obtain IP54 rating against water and dust.

TECHNICAL CHARACTERISTICS

- 2 controls for electric lock and auxiliary control (1A, 30V max)
- Output for activation of external cameras (programmable I/O)
- Adjustable speaker, microphone and electric lock
- LED pictograms for status alerts: door opening, active communication, call in progress and system busy
- It can be manually programmed.
- Mini USB port for PC connection, software programming and firmware update
- Dip-switch for adapting the line impedance.
- To be completed with intercom front panel to obtain IP54 rating against water and dust.

MTMA/IP 60020040

PLUS

- 2 call buttons with double blue or white backlight with intensity adjustment
- 2 controls for electric lock and auxiliary control (1A, 30V max)
- Output for activation of external cameras (programmable I/O)
- Logic connection of a remote IP CCTV camera possible
- Adjustable speaker, microphone and electric lock from PC
- It can be manually programmed.
- LED pictograms for status alerts: door opening, active communication, call in progress and system busy
- Integrated web-server for configuration, firmware updates and browser management
- Web interface for device configuration
- Network connection via standard SIP protocol
- H.264 video codec, G711 audio codec
- Local or PoE (Powered over Ethernet) power supply
- To be completed with intercom front panel to obtain IP54 rating against water and dust.

- Hearing impaired and voice synthesis module
- Speaker for playback of multilingual voice messages related to the system
- It integrates an audio-frequency induction system for hearing aids, in the “T” position.
- Manual or PC tool programming
- To be completed with hearing aid module panel to obtain IP54 rating against water and dust.

MTMKB 60020230

PLUS

- Keypad module for digital call and access control code entering
- 12-button alphanumeric keyboard with double blue or white backlighting.
- Adjustable color and brightness of the LEDs using the main modules.
- Key 0 to 9 for entering the code
- 2 keys for main functions: call activation and access code confirmation
- To be completed with digital call module panel to obtain IP54 rating against water and dust.

TECHNICAL CHARACTERISTICS

| MODELS | MTMBFVS | MTMKB |
|-----------------------------------|----------------|----------------|
| Dimensions (mm) | 85 x 85 x 35 | 85 x 85 x 35 |
| Internal dimensions (mm) | - | - |
| Packaging dimensions (mm) | 156 x 57 x 110 | 156 x 57 x 110 |
| Power supply (V) | 10.7-18 DC | 10.7-18 DC |
| PoE power supply | - | - |
| Consumption in stand-by mode (mA) | 20 | 20 |
| Max. absorption (mA) | 55 | 55 |
| Operating temperature (°C) | -25 ÷ +55 | -25 ÷ +55 |
| Protection rating (IP) | 54 | 54 |

MTMDY 60020240

PLUS

- Blue or white backlight LCD display module
- Color and brightness adjustment from the menu or via the main modules.
- It allows viewing up to 7200 names in the address book.
- Search in scroll mode or alphabetic block mode.
- It allows direct calling to the extensions through the central button.
- To be completed with display module panel to obtain IP54 rating against water and dust.

MTMRFID 60020250

PLUS

- RFID access control module with Mifare technology (13.56 MHz)
- Blue or white backlighting
- Adjust color and brightness by using the main modules.
- Allows the addition and removal of badges/tags directly from the reader or through a PC tool.
- It independently manages up to 6,500 proximity keys.
- Sound and visual indication of the status (access allowed/denied) through buzzer and buttons backlighting (green/red).
- CAN BUS connector for connection to XiP or IP360 system
- 2 relay contacts for opening gates and 2 inputs for direct activation of the relays.
- To be completed with RFID module panel to obtain IP54 rating against water and dust.

TECHNICAL CHARACTERISTICS

| MODELS | MTMDY | MTMRFID |
|-----------------------------------|----------------|----------------|
| Dimensions (mm) | 85 x 85 x 35 | 85 x 85 x 35 |

MTMMI 60020290

PLUS

- Information module
- Blue or white LED for information card backlighting
- Color and brightness adjustment using the main modules.
- To be completed with information module panel to obtain IP54 rating against water and dust.

MTMMC 60020310

PLUS

- Blind module
- Blind front panel made of natural anodized satin finish aluminum.
- IK07 impact resistance rating and water and IP54 water and dust protection rating.

THE COMPLETE RANGE

| Code | Description | |
|------------------------------------|--|---|
| Accessory modules | | |
| MTMGT 60020400 | Heating module with thermostat for MTM external units. Heater accessory that enables operation down to a temperature of -40 °C. To be combined with a built-in box (MTMSI2M, MTMSI3M or MTMSI4M). |  |
| MTMEX8C 60020590 | Module for the remote control of 8 call keys. Electronic board complete with 8 inputs for remote call buttons (maximum distance 1 m) and two outputs for backlighting. Equipped with 2 connectors for modular bus input and output. To be connected to MTM series electronic intercom or video intercom modules (except MTMA/200). |  |
| Audio front panels | | |
| MTMFA0P 60020050 | Blind intercom front panel made of natural anodized satin finish aluminum. With polycarbonate brace, it features pictograms to indicate the status of the system. To pair up with an intercom module. Shock protection rating IK07. |  |
| MTMFA1P 60020060 | 1-button intercom front panel made of natural anodized satin finish aluminum. With polycarbonate brace, it features pictograms to indicate the status of the system and 1 button with name tag size 66x15 mm. To pair up with an intercom module. Shock protection rating IK07. |  |
| MTMFA2P 60020070 | 2-button intercom front panel made of natural anodized satin finish aluminum. With polycarbonate brace, it is equipped with pictograms to indicate the status of the system and 2 double rows of buttons with 55x15 mm name tags. To pair up with an intercom module. Shock protection rating IK07. |  |
| MTMFAL0P 60020080 | Lite blind intercom front panel made of natural anodized satin finish aluminum. With polycarbonate brace. To pair up with the MTMAL/01 lite intercom module. Shock protection rating IK07. |  |
| MTMFAL1P 60020090 | 1-button lite intercom front panel made of natural anodized satin finish aluminum. With polycarbonate brace. It comes with 1 button and a 66x15 mm name tag. To pair up with the MTMAL/01 lite intercom module. Shock protection rating IK07. |  |
| MTMFAL2P 60020100 | 2-button lite intercom front panel made of natural anodized satin finish aluminum. With polycarbonate brace. With 2 buttons, in double rows, and 55x15 mm name tags. To pair up with the MTMAL/01 lite intercom module. Shock protection rating IK07. |  |

THE COMPLETE RANGE

| Code | Description | |
|---|--|---|
| Front panels for call modules | | |
| MTMF2P 60020110 | 2-button call module front panel made of natural anodized satin finish aluminum. With polycarbonate brace and 2 single row buttons with name tag size 66x15 mm. To pair with the MTM8C or MTM8C/200 call module. Shock protection rating IK07. |  |
| MTMF3P 60020120 | 3-button call module front panel made of natural anodized satin finish aluminum. With polycarbonate brace and 3 single row buttons with name tag size 66x15 mm. To pair with the MTM8C or MTM8C/200 call module. Shock protection rating IK07. |  |
| MTMF4P 60020130 | 4-button call module front panel made of natural anodized satin finish aluminum. With polycarbonate brace and 4 single row buttons with name tag size 66x15 mm. To pair with the MTM8C or MTM8C/200 call module. Shock protection rating IK07. |  |
| MTMF8P 60020140 | 8-button call module front panel made of natural anodized satin finish aluminum. With polycarbonate brace and 8 double row buttons with name tag size 55 x 15 mm. To pair with the MTM8C or MTM8C/200 call module. Shock protection rating IK07. |  |
| Front panels for electronic expansion modules | | |
| MTMRFID 60020260 | RFID module front panel made of natural anodized satin finish aluminum. With polycarbonate brace. To pair with the MTMRFID module. Shock protection rating IK07. |  |
| MTMFKB 60020270 | Keypad module front panel made of natural anodized satin finish aluminum. With polycarbonate brace. To pair with the MTMKB module. Shock protection rating IK07. |  |
| MTMFDY 60020280 | Display module front panel made of natural anodized satin finish aluminum. With polycarbonate brace. To pair with the MTMDY module. Shock protection rating IK07. |  |
| MTMFMI 60020300 | Information module front panel made of natural anodized satin finish aluminum. With polycarbonate brace. To pair with the MTMMI module. Shock protection rating IK07. |  |
| MTMFNA 60020910 | Access control keypad module front panel made of natural anodized satin finish aluminum. With polycarbonate brace. To pair with the MTMNA module. Shock protection rating IK07. |  |
| MTMFBF 60020920 | Hearing impaired and voice synthesis module made of natural anodized satin finish aluminum. With polycarbonate brace. To pair with the MTMBFVS module. Shock protection rating IK07. |  |

THE COMPLETE RANGE

| Code | Description | |
|--|---|---|
| Frames | | |
| MTMTP1M 60020170 | Frame and plaque for 1-module MTM. Black painted aluminum frame with cataphoresis finish ensures high resistance to corrosion and rust. Brushed anodized aluminum plaque. |  |
| MTMTP2M 60020180 | Frame and plaque for 2-module MTM. Black painted aluminum frame with cataphoresis finish ensures high resistance to corrosion and rust. Brushed anodized aluminum plaque. |  |
| MTMTP3M 60020340 | Frame and plaque for 3-module MTM. Black painted aluminum frame with cataphoresis finish ensures high resistance to corrosion and rust. Brushed anodized aluminum plaque. |  |
| MTMTP4M 60020350 | Frame and plaque for 4-module MTM. Black painted aluminum frame with cataphoresis finish ensures high resistance to corrosion and rust. Brushed anodized aluminum plaque. |  |
| Accessories for recessed installation | | |
| MTMSI1M 60020150 | Recess-mounting box for 1-module MTM entry panels. Plastic recess-mounting box with 2 cable gland joints for installing side by side and with pre-punched holes for passing the cables. |  |
| MTMSI2M 60020160 | Recess-mounting box for 2-module MTM entry panels. Plastic recess-mounting box with 2 cable gland joints for installing side by side and with pre-punched holes for passing the cables. |  |
| MTMSI3M 60020320 | Recess-mounting box for 3-module MTM entry panels. Plastic recess-mounting box with 2 cable gland joints for installing side by side and with pre-punched holes for passing the cables. |  |
| MTMSI4M 60020330 | Recess-mounting box for 4-module MTM entry panels. Plastic recess-mounting box with 2 cable gland joints for installing side by side and with pre-punched holes for passing the cables. |  |
| MTMTI1M 60020490 | Rain flap for recess-mounting onto vertical, 1-module MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTI2M 60020500 | Rain flap for recess-mounting onto vertical, 2-module MTM entry panels. Painted metal sheeting rain ledge. |  |

THE COMPLETE RANGE

| Code | Description | |
|---------------------------------------|---|---|
| Accessories for recessed installation | | |
| MTMTI3M 60020510 | Rain flap for recess-mounting onto vertical, 3-module MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTI4M 60020520 | Rain flap for recess-mounting onto vertical, 4-module MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTIIM2 60020530 | Rain flap for recess-mounting onto horizontal 2-module MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTIIM3 60020540 | Rain flap for recess-mounting onto horizontal 3-module MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTIIM4 60020550 | Rain flap for recess-mounting onto horizontal 4-module MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTI2M2 60020560 | Rain flap for recess-mounting onto 2 vertical and 2 horizontal MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTI3M2 60020570 | Rain flap for recess-mounting onto 3 vertical and 2 horizontal MTM entry panels. Painted metal sheeting rain ledge. |  |
| MTMTI3M3 60020580 | Rain flap for recess-mounting onto 3 vertical and 3 horizontal MTM entry panels. Painted metal sheeting rain ledge. |  |

THE COMPLETE RANGE

| Code | Description | |
|------------------------------------|--|---|
| Accessories for wall installation | | |
| MTMSP1M 60020190 | Box with rain flap for wall-mounting vertical 1-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP2M 60020200 | Box with rain flap for wall-mounting vertical 2-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP3M 60020360 | Box with rain flap for wall-mounting vertical 3-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP4M 60020370 | Box with rain flap for wall-mounting vertical 4-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP1M2 60020430 | Box with rain flap for wall-mounting horizontal 2-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP1M3 60020440 | Box with rain flap for wall-mounting horizontal 3-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP1M4 60020450 | Box with rain flap for wall-mounting horizontal 4-module MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP2M2 60020460 | Box with rain flap for wall-mounting 2 vertical and 2 horizontal MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP3M2 60020470 | Box with rain flap for wall-mounting 2 vertical and 3 horizontal MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |
| MTMSP3M3 60020480 | Box with rain flap for wall-mounting 3 vertical and 3 horizontal MTM entry panels. Wall-mounting box with metal sheeting rain ledge, with pre-punched holes for passing the cables and with wall-fastening screws. |  |

THE COMPLETE RANGE

| Code | Description | |
|---|---|---|
| Adaptors for identification plates | | |
| MTMFA0PAM 60020780 | Blind audio adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace. To be completed with corresponding electronic intercom module. |  |
| MTMFA1PAM 60020790 | Single button audio adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with call button and name tag size 42x10 mm. To be completed with corresponding electronic intercom module. |  |
| MTMFA2PAM 60020800 | Double button audio adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with 2 call buttons and name tag size 42x10 mm. To be completed with corresponding electronic intercom module. |  |
| MTMFAL0PAM 60020810 | Lite blind audio adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace. Finish off with the MTMAL/01 lite intercom electronic module. |  |
| MTMFAL1PAM 60020820 | Lite single button audio adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with call button and name tag size 42x10 mm. To finish off with the MTMAL/01 lite intercom electronic module. |  |
| MTMFAL2PAM 60020830 | Lite double button audio adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with 2 call buttons and name tag size 42x10 mm. To finish off with the MTMAL/01 lite intercom electronic module. |  |
| MTMF2PAM 60020840 | 2 button adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with 2 call buttons and name tags size 42x10 mm. To finish off with the corresponding MTM8C or MTM8C/200 electronic call module. |  |
| MTMF3PAM 60020850 | 3 button adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with 3 call buttons and name tags size 42x10 mm. To finish off with the corresponding MTM8C or MTM8C/200 electronic call module. |  |

THE COMPLETE RANGE

| Code | Description | |
|---|---|---|
| Adaptors for identification plates | | |
| MTMF4PAM 60020860 | 4 button adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with 4 call buttons and name tags size 42x10 mm. To finish off with the corresponding MTM8C or MTM8C/200 electronic call module. |  |
| MTMF8PAM 60020870 | 8 button adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace with 8 call buttons and name tags size 42x10 mm. To finish off with the corresponding MTM8C or MTM8C/200 electronic call module. |  |
| MTMFKBAM 60020880 | Digital call keypad adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace, alpha-numeric keypad with 12 call buttons for digital calls. To finish off with the MTMKB electronic module. |  |
| MTMFDYAM 60020890 | Display adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace, with 3 keys for menu browsing. To finish off with the MTMDY module. |  |
| MTMFRFIDAM 60020900 | RFID-INFO adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace, with RFID or INFO interchangeable tag. To finish off with the MTMRFID or MTMMI module. |  |
| MTMFNAAM 60020940 | Access control keypad adapter Mechanical adapter for other front plates (2 mm thick), polycarbonate brace, with 12-key keypad for access control. To finish off with the MTMKB electronic module. |  |

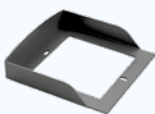

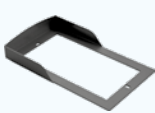

THE COMPLETE RANGE

| Code | Description | |
|--------------------------------------|--|---|
| VR audio front | | |
| MTMFA0PVR 60020600 | Anti-vandalism blind entry phone front in painted Zamak alloy. Complete with support in polycarbonate, it is furnished with pictographs for indication of the system status. To be combined with an entry phone module. IK09 grade impact protection. |  |
| MTMFA1PVR 60020610 | 1-button entry phone front in painted Zamak alloy. Complete with support in polycarbonate, it is furnished with pictographs for indication of the system status and 1 button with 42x10 mm name card holder. To be combined with an entry phone module. IK09 grade impact protection. |  |
| MTMFA2PVR 60020620 | 2-button entry phone front in painted Zamak alloy. Complete with support in polycarbonate, it is furnished with pictographs for indication of the system status and 2 buttons in two rows with 42x10 mm name card holder. To be combined with an entry phone module. IK09 grade impact protection. |  |
| MTMFAL0PVR 60020630 | Blind entry phone lite front in painted Zamak alloy. Complete with support in polycarbonate. To be combined with the entry phone lite module (MTMAL/01). IK09 grade impact protection. |  |
| MTMFAL1PVR 60020640 | 1-button entry phone lite front in painted Zamak alloy. Complete with support in polycarbonate, it is equipped with 1 button and 42x10 mm name card holder. To be combined with the entry phone lite module (MTMAL/01). IK09 grade impact protection. |  |
| MTMFAL2PVR 60020650 | 2-button entry phone lite front in painted Zamak alloy. Complete with support in polycarbonate, it is equipped with 2 buttons in two rows with 42x10 mm name card holder. To be combined with the entry phone lite module (MTMAL/01). IK09 grade impact protection. |  |

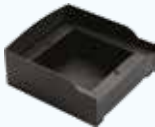

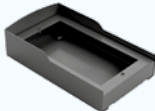

THE COMPLETE RANGE

| Code | Description | |
|--|--|---|
| VR front panels for call modules | | |
| MTMF2PVR 60020660 | 2-button call module front in painted Zamak alloy. Complete with support in polycarbonate and 2 buttons in a single row with 42x10 mm name card holder. To be combined with a calls module (MTM8C or MTM8C/200). IK09 grade impact protection. |  |
| MTMF3PVR 60020670 | 3-button call module front in painted Zamak alloy. Complete with support in polycarbonate and 3 buttons in a single row with 42x10 mm name card holder. To be combined with a calls module (MTM8C or MTM8C/200). IK09 grade impact protection. |  |
| MTMF4PVR 60020680 | 4-button call module front in painted Zamak alloy. Complete with support in polycarbonate and 4 buttons in a single row with 42x10 mm name card holder. To be combined with a calls module (MTM8C or MTM8C/200). IK09 grade impact protection. |  |
| MTMF8PVR 60020690 | 8-button call module front in painted Zamak alloy. Complete with support in polycarbonate and 8 buttons in two rows with 42x10 mm name card holder. To be combined with a calls module (MTM8C or MTM8C/200). IK09 grade impact protection. |  |
| VR front panels for electronic expansion modules | | |
| MTMFKBVR 60020700 | Keyboard module front in painted Zamak alloy. Complete with support in polycarbonate. To be combined with a MTMKB module. IK09 grade impact protection. |  |
| MTMFDYVR 60020710 | Display module front in painted Zamak alloy. Complete with support in polycarbonate. To be combined with a MTMDY module. IK09 grade impact protection. |  |
| MTMMCVR 60020730 | Blind module complete with VR front. Module with body in technopolymer. Complete with blind front in painted Zamak alloy. IK09 grade impact protection. |  |
| MTMFRFIDVR 60020720 | RFID – information module front in painted Zamak alloy. Complete with support in polycarbonate. To be combined with a MTMRFID or MTMMI module. IK09 grade impact protection and IP54 grade water and dust protection. |  |
| MTMFNAVR 60020930 | Access control keyboard module front in painted Zamak alloy. Complete with support in polycarbonate. To be combined with a MTMNA module. IK09 grade impact protection. |  |
| MTMBFVR 60020950 | Hard of hearing and voice synthesis front module in painted Zamak alloy. Complete with polycarbonate bracket. To be combined with an MTMBFVS module. IK09 impact protection rating. |  |

THE COMPLETE RANGE

| Code | Description | |
|--|---|---|
| VR frames | | |
| MTMTP1MVR 60020740 | Frame and plate for 1 module MTM VR. Aluminum frame with cataphoresis and black paint finish to ensure high levels of resistance to corrosion and rust. Plate in painted Zamak alloy furnished with special anti-burglary screws. |  |
| MTMTP2MVR 60020750 | Frame and plate for 2-module MTM VR. Aluminum frame with cataphoresis and black paint finish to ensure high levels of resistance to corrosion and rust. Plate in painted Zamak alloy furnished with special anti-burglary screws. |  |
| MTMTP3MVR 60020760 | Frame and plate for 3-module MTM VR. Aluminum frame with cataphoresis and black paint finish to ensure high levels of resistance to corrosion and rust. Plate in painted Zamak alloy furnished with special anti-burglary screws. |  |
| MTMTP4MVR 60020770 | Frame and plate for 4-module MTM VR. Aluminum frame with cataphoresis and black paint finish to ensure high levels of resistance to corrosion and rust. Plate in painted Zamak alloy furnished with special anti-burglary screws. |  |
| Recess-mounting accessories | | |
| MTMTI1M VR 840XC-0200 | Rain cover for recess-mounting onto vertical, 1-module MTM entry panels, VR finish. Rain cover made of steel sheet with double layer painting. |  |
| MTMTI2M VR 840XC-0210 | Rain cover for recess-mounting onto vertical, 2-module MTM entry panels, VR finish. Rain cover made of steel sheet with double layer painting. |  |
| MTMTI3M VR 840XC-0220 | Rain cover for recess-mounting onto vertical, 3-module MTM entry panels, VR finish. Rain cover made of steel sheet with double layer painting. |  |
| MTMTI4M VR 840XC-0230 | Rain cover for recess-mounting onto vertical, 4-module MTM entry panels, VR finish. Rain cover made of steel sheet with double layer painting. |  |

THE COMPLETE RANGE

| Code | Description | |
|--|--|---|
| Wall-hung accessories | | |
| MTMSP1M VR 840XC-0160 | Box with rain cover for wall mounting of vertical 1-module MTM entry panels, VR finish. Wall-mounting box with steel sheet rain cover featured by double-layer painting, holes for passing the cables and other holes for the wall-fastening screws. |  |
| MTMSP2M VR 840XC-0170 | Box with rain cover for wall mounting of vertical 2-module MTM entry panels, VR finish. Wall-mounting box with steel sheet rain cover featured by double-layer painting, holes for passing the cables and other holes for the wall-fastening screws. |  |
| MTMSP3M VR 840XC-0180 | Box with rain cover for wall mounting of vertical 3-module MTM entry panels, VR finish. Wall-mounting box with steel sheet rain cover featured by double-layer painting, holes for passing the cables and other holes for the wall-fastening screws. |  |
| MTMSP4M VR 840XC-0190 | Box with rain cover for wall mounting of vertical 4-module MTM entry panels, VR finish. Wall-mounting box with steel sheet rain cover featured by double-layer painting, holes for passing the cables and other holes for the wall-fastening screws. |  |

Water and dust protection

Recess mounted
2 mm thick

Wall mounted
47 mm thick

Easy to configure thanks to the "Quick Start" function, with wizard illustrated through the display of the device.
Equipped with mini USB port for PC connection, software programming and firmware update.

DIGITHA is the intercom entry panel equipped with LCD display with 4 function keys that allow navigation through the graphic interface. Thanks to the refined design and the resistance guaranteed by the vandal protection, it is ideal for large installations based on the XIP system.

FUNCTIONS FOR PEOPLE WITH HEARING OR VISION IMPAIRMENT

The main functions (door opening, active communication, call in progress and system busy) are indicated by audible and visual alerts via LEDs with pictograms.

MAIN FUNCTIONS

- Alphanumeric keyboard with touch buttons
- Digital calls to 2600 users.
- Microphone and speaker volume adjustment
- Electric lock activation time adjustment
- Output for activation of external cameras
- Dip-switch for adapting the line impedance
- Body in stainless steel with double-finishing contrast treatment
- 2 finishes available:
Metal or Electropolished for better weather resistance

THE COMPLETE RANGE

| Code | Description | |
|---|---|---|
| Intercom entry panels for XIP systems | | |
| DDC/08 VR 60080010 | <p>Vandal-proof monolithic intercom entry panel for XIP systems; double finishing treatment.</p> <p>Entry panel with AISI 304 stainless steel front plate and double finish treatment. Featuring a graphical LCD display, 4 function keys for browsing the graphical interface, alphanumeric keypad for digital calls and access control and RFID reader. Equipped with local control for electric lock, inputs for door-opener button and for signaling the door status, and one output for activating external cameras. Adjustable microphone and speaker volume. An LED is fitted in the front top provide visual alerts as to the system status. Dip-switch for adapting the line impedance. Manual "Quick Start" programming with menu-driven display or PC operation via MINI USB connector. IP54 water and dust protection.</p> |  |
| DDC/08 VR ELU 60080020 | <p>Vandal-proof monolithic intercom entry panel for XIP systems; electric polishing finish.</p> <p>Entry panel with AISI 304 stainless steel front plate and electric polishing finish. Featuring a graphical LCD display, 4 function keys for browsing the graphical interface, alphanumeric keypad for digital calls and access control and RFID reader. Equipped with local control for electric lock, inputs for door-opener button and for signaling the door status, and, one output for activating external cameras. Adjustable microphone and speaker volume. An LED is fitted in the front top provide visual alerts as to the system status. Dip-switch for adapting the line impedance. Manual "Quick Start" programming with menu-driven display or PC operation via MINI USB connector. IP54 water and dust protection.</p> |  |

DDC/08 VR

60080010

PLUS

- Integrated RFID reader for opening through proximity key
- Open main door via number code
- AISI 304 stainless steel front plate with double finish metal treatment.

Water and dust protection

Recess mounted
2 mm thick

Wall mounted
25 mm thick

Thangram is the semi-modular intercom entry panel customizable both in functional and aesthetic aspects. The technopolymer body is available in Greyhound or Metal finish.

The calling device can be configured in 4 different modes:

Classic push button panel with blue backlighting and name tag

Expandable digital selector switch

Access control via numerical code and RFID reader with integrated display

Access control via RFID reader

FUNCTIONS FOR PEOPLE WITH HEARING OR VISION IMPAIRMENT

The main functions (door opening, active communication, call in progress and system busy) are indicated by audible and visual alerts via LEDs with pictograms.

MAIN FUNCTIONS

- Local control for electric lock
- Output for activation of external cameras
- Microphone and speaker volume adjustment
- Electric lock activation time adjustment
- Mini USB port for PC connection, software programming and firmware update
- Water and dust protection IP54

THE COMPLETE RANGE

| Code | Description | |
|---|--|---|
| Intercom entry panels for X1 systems | | |
| DC/01 60090010 | Semi-modular, monolithic intercom entry panel for X1 system. Body made of techno-polymer with Greyhound finish and with Aluminum colored front plaque. Equipped with local control for electric lock, inputs for door-opener button and for signaling the door status, and one output for activating external cameras. It allows to adjust the microphone and speaker audio and the electric lock activation time. The front is equipped with LEDs for visual indication of the system status. Blue backlit name tag buttons. Up to 108 calls can be expanded with the extra DP/O push-button panel or with a keypad module for digital calls. IP54 water and dust protection. |  |
| DC/01 ME 60090020 | Semi-modular, monolithic intercom entry panel for X1 system, Metal finish. Body made of techno-polymer and chromed, satin metal finish. Equipped with local control for electric lock, inputs for door-opener button and for signaling the door status, and, one output for activating external cameras. Adjusts the microphone and speaker audio and the electric lock activation time. The front is equipped with LEDs for visual indication of the system status. Blue backlit button with name tag. Up to 108 calls can be expanded with the extra DP/O push-button panel or with a keypad module for digital calls. Front plate not included. IP54 water and dust protection rating. |  |
| Intercom entry panels for XIP systems | | |
| DC/08 60090030 | Semi-modular, monolithic intercom entry panel for XIP system. Body made of techno-polymer with Greyhound finish, and with Aluminum colored front plate. Equipped with local control for electric lock, inputs for door-opener button and for signaling the door status, and, one output for activating external cameras. Adjusts the microphone and speaker audio and the electric lock activation time. The front is equipped with LEDs for visual indication of the system status. Blue backlit button with name tag. Expandable with additional button panel (DP/O) or with a keyboard module for digital calls. IP54 water and dust protection rating. |  |
| DC/08 ME 60090040 | Semi-modular, monolithic intercom entry panel for XIP system, Metal finish. Body made of techno-polymer and chromed, satin metal finish. Equipped with local control for electric lock, inputs for door-opener button and for signaling the door status, and one output for activating external cameras. It allows to adjust the microphone and speaker audio and the electric lock activation time. The front is equipped with LEDs for visual indication of the system status. Blue backlit name tag buttons. Can be expanded with the additional DP/O keypad or with a keypad module for digital calls. Front plaque not included. IP54 water and dust protection. |  |
| Video intercom entry panels for the IP360 systems | | |
| DC/IP ME 60091030 | Semi-modular, monolithic intercom entry panel for IP360 system. Body made of techno-polymer and chromed, satin metal finish. Equipped with local control for electric lock, auxiliary contact (1 A, 24 V max), I/O programmable inputs for door lock release button and for door status alerts, I/O programmable output for activating external cameras. Terminals for network, PoE or local connection. The front is equipped with LEDs for visual indication of the system status. Blue backlit name-tag keys with adjustable brightness. On-board web server for configuring and updating firmware. Power supply POE or local 12 to 24 V DC. To finish off with a front plaque. IP54 water and dust protection. |  |

DC/01

60090010

PLUS

- Techno-polymer body with Greyhound finish
- Anodized aluminum plate with aluminum color
- Up to 108 calls with DP/0 button module
- Up to 1250 calls in combination with DCOMBO module
- Up to 2600 digital calls with digital DNA module

DC/01 ME

60090020

PLUS

- Body made of techno-polymer with chrome satin metal finish
- Interchangeable anodized aluminum plate available in 4 colors (not included)

THE COMPLETE RANGE

| Code | Description | |
|----------------------------------|---|---|
| Accessories | | |
| DSI 60090050 | Recess-mounting box for entry panels of the Thangram series. Plastic recess-mounting box with self-locking joints and pre-punched holes for passing the cables. To finish off the installation with the DCI or DCI ME frame. Can be used with any entry panel of the Thangram series or extra DP/0 button panel. |  |
| DPF AL 60090060 | Anodized aluminum front plaque, Aluminum finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/0 button panel. |  |
| DPF NF 60090070 | Anodized aluminum front plaque, Matt Black finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/0 button panel. |  |
| DP/0 60090080 | Extra button panel for intercom and video intercom entry panels of the Thangram series. Set up to house, maximum 10, single and double overhang buttons and maximum 5, double height buttons. Equipped with 20 blue LEDs for backlighting the name tag keys. To finish off with a front plaque. IP54 water and dust protection. |  |
| DPF ME 60090530 | Anodized aluminum front plaque, Metal finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/0 button panel. |  |
| DPF RS 60090560 | Anodized aluminum front plaque, Dark Red RAL 3011 finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/0 button panel. |  |
| DPF BL 60090570 | Anodized aluminum front plaque, Ocean Blue RAL 5020 finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/0 button panel. |  |
| DPF BI 60090580 | Anodized aluminum front plaque, White finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/0 button panel. |  |
| DPF VD 60090590 | Anodized aluminum front plaque, Turquoise Mint RAL 6033 finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/0 button panel. |  |
| DPF AR 60090610 | Anodized aluminum front plaque, Orange Yellow RAL 2000 finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP/0 button panel. |  |

THE COMPLETE RANGE

| Code | Description | |
|----------------------------------|--|---|
| Accessories | | |
| DPF NL 60090620 | Anodized aluminum front plaque, Deep Black RAL 9005 glossy finish. It comes with techno-polymer brace. Can be used with any entry panel of the Thangram series or extra DP0 button panel. |  |
| DSM 60090630 | Steel recess-mounting box for entry panels of the Thangram series. Galvanized steel recess-mounting box with pre-punched holes for passing the cables. To finish off the installation with the DCI or DCI ME frame. Can be used with any entry panel of the Thangram series or extra DP0 button panel. |  |
| DCI 61800010 | Frame for recess-mounting entry panels of the Thangram series; Greyhound finish. Satin chrome plated plastic frame; Greyhound finish. To use with the DSI recess-mounting box and with any entry panel of the Thangram series; with Greyhound finish and extra DP0 button panel. |  |
| DCI ME 61800020 | Frame for recess-mounting entry panels of the Thangram series; Metal finish. Satin chrome plated plastic frame; Metal finish. To use with the DSI recess-mounting box and with any entry panel of the Thangram series; with Metal finish and extra DP0 button panel. |  |
| DPS 61800030 | Single button with name tag. Basic set with transparent polycarbonate anti-UV outer cover. Size of the name tag 53x13 mm. |  |
| DPH 61800040 | Double height single button with name tag. Basic set with transparent polycarbonate anti-UV outer cover. Size of the name tag 53x33 mm. |  |
| DPD 61800050 | Double overhang button with name tag. Basic set with transparent polycarbonate anti-UV outer cover. Size of the name tag 25x13 mm. |  |
| DTS 61800060 | Single cap; Greyhound finish. Techno-polymer cap. To use with any entry panel of the Thangram series; with Greyhound finish and extra DP0 button panel. |  |
| DTS ME 61800070 | Single cap; Metal finish. Techno-polymer cap plated in Metal satin chrome. To use with any entry panel of the Thangram series; with Metal finish and extra DP0 button panel. |  |
| DTH 61800080 | Double-height cap; Greyhound finish. Techno-polymer cap. To use with any entry panel of the Thangram series; with Greyhound finish and extra DP0 button panel. |  |

THE COMPLETE RANGE

| Code | Description | |
|----------------------------------|---|---|
| Accessories | | |
| DTH ME 61800090 | Double-height cap; Metal finish. Techno-polymer cap plated in Metal satin chrome. To use with any entry panel of the Thangram series; with Metal finish and extra DP0 button panel. |  |
| DRFID 61800290 | RFID reader module for proximity cards to use with entry panels of the Thangram series. With antenna and decoding circuit and Mifare technology (13.56 MHz). It is fitted onto the entry panel (it takes up 2 single buttons). For use with any Thangram series intercom entry panel system and video intercom entry panel system (not applicable to the DP0 additional push-button panel). |  |
| DNA 61800320 | Keypad module for digital call and access control to use with entry panels of the Thangram series. Greyhound finish. Keypad module with 12 PC/ABS techno-polymer buttons. Key 0 to 9 for entering the code and 2 other keys for the main functions: activate call and confirm access code. It is fitted onto the entry panel (it takes up 3 single buttons). For use with any intercom and video intercom entry panel of the Thangram series; with Greyhound finish. The extra DP0 button panel does not apply. |  |
| DNA ME 61800360 | Keypad module for digital call and access control to use with entry panels of the Thangram series. Metal finish. 12-button keypad module made of PC/ABS techno-polymer with Metal satin chrome plating. Key 0 to 9 for entering the code and 2 other keys for the main functions: activate call and confirm access code. It is fitted onto the entry panel (it takes up 3 single buttons). To use with any intercom and video intercom entry panel of the Thangram series; with Metal finish. The extra DP0 button panel does not apply. |  |
| DTP 61800390 | Rain flap for installing on wall onto entry panels of the Thangram series. Painted steel sheeting rain flap. To use with any entry panel of the Thangram series or with the extra DP0 button panel. |  |
| DMI 61800440 | Information module for generic alerts. Basic set with transparent polycarbonate anti-UV outer cover. Can be used with any entry panel of the Thangram series or extra DP0 button panel. Cannot be used as a call button. Information tag dimensions: 53x33 mm. |  |
| DBAD10 61800460 | Proximity card with Mifare technology. To use for interacting with RFID readers. The package contains 10 pieces. |  |
| DTAG5 61800470 | Keyfob proximity device with Mifare technology. To use for interacting with RFID readers. The package contains 5 pieces. |  |
| DCOMBO 61800760 | Keypad module for digital calls and access control with RFID reader and built-in display. To use with entry panels of the Thangram series. Keypad module with soft touch buttons, integrated LCD display and proximity key reader. It is installed in the entry panel and occupies the space of 4 single keys. It is for searching for users in the address book and for enabling access control via a numeric code or proximity key. It allows you to store up to 1250 names in the address book. For use with any Thangram series intercom entry panel system and video intercom entry panel system (not applicable to the DP0 additional push-button panel). |  |

LITHOS is the intercom entry panel dedicated to small residential environments, characterized by its monolithic design and brushed stainless steel AISI 316L finish.

The call module can accommodate from 1 to 4 buttons with blue backlight and name tag.

Programming can be performed either directly on the device or via software.

MAIN FUNCTIONS

- Intercom function
- Microphone and speaker volume adjustment
- Electric lock activation time adjustment

Water and dust protection

Recess mounted
7 mm thick

Wall mounted
30 mm thick

Supplied with wall bracket, it can also be recess-mounted thanks to the optional box and frame.

MITHO SB

Touch-screen porter switchboard

4.3"
display

Handsfree
audio

Handset

MITHO is the handset and hands-free porter switchboard with steel desk stand, which allows to detect incoming calls and then transfer them to users.

The 4.3" LCD touch screen monitor with stylus for navigation allows you to zoom in on the conversation image in addition to adjusting the brightness of the image.

It includes all porter functions such as sending callback notifications to extensions, lists of received and missed calls, as

In turn, the internal receivers can call the switchboard through the dedicated button.

MAIN FUNCTIONS

- Equipped with hands-free and handset
- Video answering service
- Callback notification sending to extensions
- Management of alarm and panic messages from the extensions
- Wake-up and timer function for setting the intercept time bands
- Local power supply (14÷24 V DC o 12÷16 V AC).

For the configuration of the plant it is necessary to use the PCS/XiP software that allows to load the list of all the users connected to the system.

|---------------------------------------|--|---|
| MITHO SB NF 62940020 | Concierge handset and handsfree switchboard with 4.3" touch-screen display - black. With desktop stand. Specific handset monitor and handsfree for the porter function. 4.3" touch-screen display and browsing pen. It can activate all the porter functions including intercepting and forwarding calls, sending alerts and handling emergency calls. For activating the answering service when you are away and the image zoom during the conversation. Needs local power supply of 14 to 24 V DC or 12 to 16 V AC. A steel desktop stand is included. Compatible with the X1 and XIP systems. |  |
|---------------------------------------|--|---|

MITHO SB NF

62940020

PLUS

- Hands-free and handset audio
- 4.3" touch-screen display with browser pen
- Image zooming during conversation
- Screen contrast and brightness adjustment
- Program melodies depending on the type of call

TECHNICAL CHARACTERISTICS

| MODELS | MITHO SB NF |
|----------------------------|-------------------|
| Dimensions (mm) | 203 x 108 x 31 |
| Power supply by BUS (V) | 14 ÷ 24 DC |
| Absorption by BUS (mA) | 310 |
| Local power supply (V) | 12 ÷ 16 AC |
| Local absorption (mA) | 750 |
| Operating temperature (°C) | +5 ÷ +40 |
| Protection rating (IP) | 30 |
| Video standard | PAL/NTSC |
| Display | 4.3" touch screen |
| Color | Black |

Notes

For the construction of the porter switchboard it is necessary to install the ETI/SER XIP server.

The porter switchboard can also be managed using a PC equipped with XIP/Porter software, the platform developed for residential compounds, even large ones.

It includes all porter functions such as intercepting and forwarding incoming calls, lists of received and missed calls, as well as handling alarm and panic messages from extensions.

It allows to display the devices of the system with the icon that identifies their status (free, busy, etc.), as well as advanced functions such as:

- FAVORITES: list of the most frequently called devices.
- SYSTEM: list that includes all the devices in the system.
- DOOR PANELS AND CAMERAS: structure with all the door panels and cameras in the system.
- SEARCH: for quick device selection.
- AUXILIARY CONTROLS.

MAIN FUNCTIONS

- Management of two communication channels
- Turning on lights or various activations
- Auto-entry of external units and monitoring of video surveillance system cameras
- Sending of callback notifications to compatible X1 extensions
- Sending of text messages to IP360-compatible internal units
- Interception of calls from external unit
- Transfer of the call from the entry panel to the user

"Wide eye" optic with 94° aperture horizontally and 77° vertically and digital zoom adjustment. For connecting up to 4 call buttons via the supplied connector and remotely controlling the microphone. It has a connector for connecting a general keypad for access control. Equipped with local control for electric lock, inputs for door-opener button and for signaling the door status, and, one output for activating external cameras. The front is equipped with LEDs for visual indication of the system status. It allows adjustment of the microphone and speaker sound, and the electric lock activation time. Up to 11, VZS/308 call modules can be additionally cascaded.</p> |  |
| Accessories | | |
| DMRFID 61800490 | <p>RFID access-control module for X1 and XIP systems; To use with VR or custom plaques.</p> <p>With antenna and decoding circuit and Mifare 13.56 MHz technology. Module to be connected with the corresponding connector to an intercom or video intercom for X1 or XIP systems.</p> |  |

VR PLAQUES

| Code | Description | |
|---------------------------------------|--|---|
| Video plaques | | |
| VRVX/1 62020190 | Vandal-proof video intercom plaque with 1 call button. Brushed stainless steel plaque, with security screws and shock-proof buttons. With steel recess-mounting box. To work with an entry panel, it must be paired with a video intercom module. IP54 water and dust protection. |  |
| VRVX/2 62020210 | Vandal-proof video intercom plaque with 2 call buttons. Brushed stainless steel plaque, with security screws and shock-proof buttons. With steel recess-mounting box. To work with an entry panel, it must be paired with a video intercom module. IP54 water and dust protection. |  |
| VRVX/4 62020220 | Vandal-proof video intercom plaque with 4 call buttons. Brushed stainless steel plaque, with security screws and shock-proof buttons. With steel recess-mounting box. To work with an entry panel, it must be paired with a video intercom module. Water and dust protection IP54 |  |
| VRVX/6 62020230 | Vandal-proof video intercom plaque with 6 call buttons. Brushed stainless steel plaque, with security screws and shock-proof buttons. With steel recess-mounting box. To work with an entry panel, it must be paired with a video intercom module. IP54 water and dust protection. |  |
| VRVKX/1 62020240 | Vandal-proof video intercom plaque with 1 call button and keypad for access control. Brushed stainless steel plaque, with security screws and shock-proof buttons. With keyboard to manage up to 1000 access codes and provide control of 3 openings via as many relay switches. It comes with steel box for recess-mounting. To work with an entry panel, it must be paired with a video intercom module. IP54 water and dust protection. |  |
| VRVKX/2 62020250 | Vandal-proof video intercom plaque with 2 call buttons and keypad for access control. Brushed stainless steel plaque, with security screws and shock-proof buttons. With keyboard to manage up to 1000 access codes and provide control of 3 openings via as many relay switches. It comes with steel box for recess-mounting. To work with an entry panel, it must be paired with a video intercom module. IP54 water and dust protection. |  |
| VRVX/DIGI 62020260 | Vandal-proof video intercom plaque with keypad for digital calls and access control. Brushed stainless steel plaque, with security screws and shock-proof buttons. With digital keypad for system accessing and digital calling by entering a user code. With steel recess-mounting box. To work with an entry panel, it must be paired with a video intercom module. IP54 water and dust protection. |  |
| VRVX/DIGI-P 62020270 | Vandal-proof video intercom plaque with 1 call button and keypad for digital calls and access control. Brushed stainless steel plaque, with security screws and shock-proof buttons. With 1 porter-call button for calling and digital keypad for system accessing and digital calling by entering a user code. With steel recess-mounting box. To work with an entry panel, it must be paired with a video intercom module. IP54 water and dust protection. |  |
| BPVX/1 62020330 | Size 1 brass vandal-proof plaque with 1 call button. Brass plaque, with security screws and shock-resistant buttons. With steel recess-mounting box. To work with an entry panel, it must be paired with a video intercom module. IP54 water and dust protection. |  |

VR PLAQUES

|---------------------------------------|--|---|
| Audio plates | | |
| VRAX/1 60090770 | Anti-vandalism entry phone plate with 1 call button. Brushed stainless steel plaque, with security screws and shock-proof buttons. With steel recess-mounting box. To work with an entry panel, it must be paired with an intercom module. IP54 water and dust protection. |  |
| VRAX/2 60090780 | Vandal-proof intercom plaque with 2 call buttons. Brushed stainless steel plaque, with security screws and shock-proof buttons. With steel recess-mounting box. To work with an entry panel, it must be paired with an intercom module. IP54 water and dust protection. |  |
| VRAX/4 60090790 | Vandal-proof intercom plaque with 4 call buttons. Brushed stainless steel plaque, with security screws and shock-proof buttons. With steel recess-mounting box. To work with an entry panel, it must be paired with an intercom module. IP54 water and dust protection. |  |
| VRAKX/1 60090810 | Vandal-proof intercom plaque with 1 call button and keypad for access control. Brushed stainless steel plaque, with security screws and shock-proof buttons. With keyboard to manage up to 1000 access codes and provide control of 3 openings via as many relay switches. It comes with steel box for recess-mounting. To work with an entry panel is must be paired with an intercom module. IP54 water and dust protection. |  |
| VRAKX/2 60090820 | Vandal-proof intercom plaque with 2 call buttons and keypad for access control. Brushed stainless steel plaque, with security screws and shock-proof buttons. With keyboard to manage up to 1000 access codes and provide control of 3 openings via as many relay switches. It comes with steel box for recess-mounting. To work with an entry panel is must be paired with an intercom module. IP54 water and dust protection. |  |
| VRAX/DIGI 60090830 | Vandal-proof intercom plaque with keypad for digital calls and access control. Brushed stainless steel plaque, with security screws and shock-proof buttons. With digital keypad for system accessing and digital calling by entering a user code. With steel recess-mounting box. To work with an entry panel is must be paired with an intercom module. IP54 water and dust protection. |  |
| VRAX/DIGI-P 60090840 | Vandal-proof intercom plaque with 1 call button and keypad for digital calls and access control. Brushed stainless steel plaque, with security screws and shock-proof buttons. With 1 porter-call button for calling and digital keypad for system accessing and digital calling by entering a user code. With steel recess-mounting box. To work with an entry panel is must be paired with an intercom module. IP54 water and dust protection. |  |
| BPAX/1 60090890 | Brass vandal-proof video intercom plaque with 1 call button. Brass plaque, with security screws and shock-resistant buttons. With steel recess-mounting box. To work with an entry panel is must be paired with an intercom module. IP54 water and dust protection. |  |

ACCESSORIES FOR VR PLATES

| VRSH/2 60090860 | Steel wall-hung box for size 2 VR plaques. Steel wall-hung box with VR plaques. | |
| BPSH/1 60090910 | Steel wall-hung box for size 1 brass VR plaques. Steel wall-hung box for brass VR plaques. | |

SYSTEM DEVICES

Code Description

Power supply units for X1 systems

VA/01
62700030

18 V DC - 1100 mA power supply unit for Z1 video entry phone systems.
Plastic casing for installing on switchboards (EN50022) and size 12 low DIN modules. Control board for managing 18 V DC - 1100 mA max., video intercom entry panels and for managing the main 20 V DC - 800 mA max., video intercom. It has electronic, overload or short circuit protection. Equipped with terminals for managing the main bus line and terminals for connecting, over bus line, 3 video intercom entry panels. Built-in intercom selector. Open collector outputs for auxiliary functions (AUX1 and AUX2). Manual or PC programming via MINI USB connector. Entry jumper for programming the access control devices. 230 V AC 50/60 Hz supply from the power grid. IP30 water and dust protection rating.

A/01
61400010

Power supply for X1 18 V DC - 1100 mA intercom systems.
Plastic casing for installing on switchboards (EN50022) and size 12 low DIN modules. Control board for managing entry panels (18 V DC - 1100 mA max) and for managing the main intercom (20 V DC - 800 mA max) with electronic overload or short-circuit protection. With terminals for managing the main bus and terminals connecting the bus line for 3 intercom entry panels. Built-in intercom selector. Open collector outputs for auxiliary functions (AUX1 and AUX2). Manual or PC programming via MINI USB connector. Entry jumper for programming the access control devices. Use this power supply unit only with intercom systems. 230 V AC 50/60 Hz supply from the power grid. IP30 water and dust protection rating.

Power supply unit for 200 systems

A/200R
61404600

Main intercom power supply, 230V, 15VA.
Plastic casing for installing in EN50022 control panels and size 4 low DIN modules. Equipped with 2 two-tone call notes for two entry panels (or for additional call, e.g. from the landing) and power supply/control for electric lock (12 V AC, 1 A) by means of a relay inside the device driven by a timer. Equipped with a transformer whose power guarantees the power supply to the entry panel, it is electronically protected against overloads or short circuits. 230 V AC 50/60 Hz supply from the power grid. IP30 water and dust protection rating.

A/200N
61404810

Main intercom power supply, 230V, 15VA.
Plastic casing for installing in EN50022 control panels and size 4 low DIN modules. Equipped with 2 two-tone call notes for two entry panels (or for additional call, e.g. from the landing) and power supply/control for electric lock (12 V AC, 1 A) by means of a relay inside the device driven by a timer. Equipped with a transformer whose power guarantees the power supply to the entry panel, it is electronically protected against overloads or short circuits. 230 V AC 50/60 Hz supply from the power grid. IP30 water and dust protection rating.

Power drivers for XIP systems

VA/08
62700020

Power drivers for 18 V DC - 1100 mA XIP video intercom systems.
Plastic casing for installing in EN50022 control panels and size 12 low DIN modules. Control board for controlling 18 V DC - 1100 mA max. entry panels, and for controlling 20 V DC - 800 mA max. main video intercom, with electronic overload and short-circuit protection. Equipped with terminals for managing the main bus line and terminals for connecting audio/video/bus, for 4 entry panels. Open collector outputs for auxiliary functions (AUX1 and AUX2). Serial connector for connecting to the ETI/XIP gateway. Manual or PC programming via MINI USB connector. Entry jumper for programming the access control devices. 230 V AC 50/60 Hz supply from the power grid. IP30 water and dust protection rating.

Repeaters

XAS/301.01
62704701

Power supply/repeater for 20 V DC - 800 mA audio, video and data signals.
Plastic container for installing in EN50022 electrical panels, and eight-DIN low modules. Control board for directly supplying 20 V DC - 800 mA max. indoor receivers, with electronic overload and short-circuit protection. Equipped with terminals for IN/OUT connection from the riser column, 7 switches for signal compensation according to distances, 1 switch to allow the firmware update of the device to be carried out through the MINI USB connector and 1 button for resetting the device. Equipped with potentiometers for compensating audio volumes to and from the indoor receiver. 2 LEDs for checking the connection and data transfer. 230 V AC 50/60 Hz supply from the power grid. IP30 water and dust protection rating.

SYSTEM DEVICES

Code Description

Additional power drivers

VAS/101
62700011

18 V DC - 1000 mA additional power-supply unit.

Plastic casing for installing in EN50022 electrical panels, and four-DIN low modules. Full control board for powering, 18 V DC - 1000 mA max., entry panels and indoor receivers, protected from overloads or short circuits. 230 V AC 50/60 Hz supply from the power grid. IP30 water and dust protection rating.

VAS/100MH
67000701

18 V DC - 350 mA additional power-supply unit.

Plastic casing for installing in EN50022 control panels and size 3 low DIN modules. Complete control board for power supply (18 V DC - 350 mA max) receivers, with electronic overload and short-circuit protection. 230 V AC 50/60 Hz supply from the power grid. IP30 water and dust protection rating.

VAS/100.30
62703310

Supplementary 17.5 V DC - 1700 mA power supply unit.

Plastic container for installing in EN50022 electrical panels, and eight-DIN low modules. Full control board for powering, 17.5 V DC - 1700 mA max., entry panels and indoor receivers, protected from overloads and short circuits. 230 V AC 50/60 Hz supply from the power grid. IP30 water and dust protection rating.

X1 video distributors

XDV/304
62821300

4-output video distributor for signal distribution.

Miniaturised container for installation in junction boxes or electrical panels (EN50022) and size 1 low DIN module. Furnished with 4 video output to internal branches and 4 terminals for IN/OUT connection from the riser. Each output (excluding the first) has 1 jumper for closing the line impedance. Does not require power supply. IP30 water and dust protection rating.

XDV/304A
62825800

4-output amplified video distributor for signal distribution.

Plastic container for installation in electrical panels (EN50022) and size 6 low DIN modules. Furnished with 4 video output to internal branches, 3 power outputs (14-18 V DC) and 4 terminals for IN/OUT connection from the riser. Each output has 1 jumper for closing the line impedance. Requires 14-18 V DC - 60 mA max. power supply IP30 water and dust protection rating.

X1 video distributors

XDV/303
62822600

Balanced signal distributor to distribute or concentrate video transmission lines on XIP systems.

Plastic container for installation in electrical panels (EN50022) and size 8 low DIN modules. It is furnished with 4 inputs/outputs that can be configured using jumpers. Furnished with 3 switches for the video signal compensation and another 3 switches for choosing the system configuration. Requires 14-18 V DC - 300mA max. Power supply IP30 water and dust protection rating.

Selectors for intercoms

VSE/301.01
62747401

Intercom selector for X1 systems.

Plastic container for installation in electrical panels (EN50022) and size 6 low DIN modules. It enables the creation of a group of internal intercom branches maintaining the connection with the main riser and is able to provide power on the bus to the internal branches (20 V DC - 800 mA max). Furnished with 4 terminals for IN/OUT connection of the rise and 1 button to enter programming and to reset the data in the memory. 230 V AC 50/60 Hz power supply from electrical grid. IP30 water and dust protection rating.

Video selectors for X1 systems

VSC/01
62740060

CCTV analogue cameras cyclical connector for X1 systems.

Miniaturized container for installation in junction boxes or electric panels (EN50022) and size 1 low DIN module. Furnished with 4 inputs for video signals from 4 standard cameras (CCIR/EIA or PAL/NTSC) and 3 dip-switches for programming the number of connected cameras. Furnished with 4 LEDs for the indication of connected cameras and 1 LED for checking the programming status. Requires 12-18 V DC - 100 mA max. power supply.

SYSTEM DEVICES

Code Description

Video selectors for XIP systems

VSC/08

62740020

CCTV analogue cameras cyclical connector for X1 systems.

Miniaturized container for installation in junction boxes or electric panels (EN50022) and size 1 low DIN module. Furnished with 4 inputs for video signals from 4 standard cameras (CCIR/EIA or PAL/NTSC), 2 dip-switches for programming the number of connected cameras and 3 dip-switches for line impedance management. Furnished with 4 LEDs for the indication of connected cameras, 1 LED for checking the programming status and 1 LED to indicate data transmission. Requires 12-18 V DC – 90 mA max. external power supply.

Video amplifiers

XDV/300A

62822000

Video signal amplifier.

Miniaturized container for installation in junction boxes or electric panels (EN50022) and size 1 low DIN module. Furnished with IN/OUT terminals for video signal and 2 switches for signal compensation based on the connection mode. To be used on the main riser after 10 XDV/304 or on a branch of an XDV/304 for the connection of additional video distributors in cascade. Does not require power supply.

XDV/304A

62825800

4-output amplified video distributor for signal distribution.

Plastic container for installation in electrical panels (EN50022) and size 6 low DIN modules. Furnished with 4 video output to internal branches, 3 power outputs (14-18 V DC) and 4 terminals for IN/OUT connection from the riser. Each output has 1 jumper for closing the line impedance. Requires 14-18 V DC - 60 mA max. power supply IP30 water and dust protection rating.

Repeaters

RIR/08

62800330

Data line repeater for XIP system.

Miniaturized container for installation in junction boxes or electric panels (EN50022) and size 1 low DIN module. Furnished with 4 dip-switches for line impedance management. Requires 12-18 V DC – 65 mA max. power supply.

Relay unit

VLS/101M

62800580

Relay unit for auxiliary services.

Servo-relay for auxiliary services such as staircase lighting, sirens, openings etc. made in miniaturized container for installation in electrical panels (EN50022) and size 1 low DIN module. The relay is fitted with pulse-type switching contacts (breaking power 5 A resistive – 2 A inductive, max. voltage 250 V AC) and can be controlled in direct or alternating current from 10 V to 24 V, or by low-level electrical signals from the system. Requires 10-24 V DC – 40 mA max. power supply

VLS/300

62825400

2-relay unit for auxiliary services.

Servo-relay for auxiliary services such as staircase lighting, sirens, openings etc. made in plastic containers for installation in electrical panels (EN50022) and size 4 low DIN module. The unit has 2 relays with switching contact with a breaking power of 2 A resistive (1 A inductive) and max. voltage 250 V AC. The 2 relays are by default associated with the door open commands and AUX 2. It is furnished with 6 dip-switches for programming the device, 1 potentiometer for the adjustment of the activation time of relay 1 (door open) and 1 LED indicating the data reception status from the bus line. Requires 12-14 V AC or 14-18 DC – 50 mA max. power supply IP30 water and dust protection rating.

VLS/2

62800470

2-relay unit for auxiliary services.

Servo-relay for auxiliary services such as staircase lighting, sirens, openings etc. made in miniaturized container for installation in electrical panels (EN50022) and size 1 low DIN module. The unit has 2 relays with switching contact with a breaking power of 5 A resistive (2 A inductive) and max. voltage 250 V AC. The 2 relays are by default associated with the door open commands and AUX 2. It is furnished with 8 dip-switches for programming (manually or from the PC) the device, 1 potentiometer for the adjustment of the activation time of relay 1 (door open) and 1 LED to check the programming and data transmission status. It does not require power supply.

SYSTEM DEVICES

Code Description

Relay units for XIP systems

VLS/3

62800290

3-relay unit for auxiliary services for XIP system.

Servo-relay for auxiliary services such as staircase lighting, sirens, openings etc. made in miniaturized container for installation in electrical panels (EN50022) and size 4 low DIN module. The unit has 3 relays with switching contact with a breaking power of 10 A resistive (2 A inductive) and max. voltage 250 V AC. The 3 relays are associated by default with the door open commands and AUX2, 5 LEDs for checking the operating status, the programming and data transmission status. Programming from PC. It requires 11-18 V DC – 200 mA max. power supply.

Cables

VCM/1D

62828000

Package with 100 m twisted pair cable with 1 mm² cross-section, CPR Eca class.

Cable with insulating external PVC sheath with 7 mm, yellow colour RAL 1021. Wires winding 10 coils/m. Tinned copper wires in white colour RAL 9001 and blue RAL 5015. Nominal impedance 100 ohm (f=1 MHz), capacity 50 pF (at 20° C). Minimum cable curvature radius of 80 mm. It complies with latest edition of CEI 46-6 regulations.

VCM/1D/500

62828100

Package with 500 m double-twisted cable with 1 mm² cross-section, CPR Eca class.

Cable with insulating external PVC sheath with 7 mm, yellow colour RAL 1021. Wires winding 10 coils/m. Tinned copper wires in white colour RAL 9001 and blue RAL 5015. Nominal impedance 100 ohm (f=1 MHz), capacity 50 pF (at 20° C). Minimum cable curvature radius of 80 mm. It complies with latest edition of CEI 46-6 regulations.

VCM/2D

62823300

Package with 100 m double-twisted cable with 1 mm² cross-section and 2 wires with 1 mm² cross-section, CPR Eca class.

Cable with external insulating PVC sheath with 8 mm diameter, yellow colour RAL 1021. Twisted pair with helix stranding at 70 mm steps. Tinned copper wires. White/blue and blue for twisted pair, red and green for power wires. Twisted pair nominal impedance 100 ohm (f=1 MHz), capacity 50 pF (at 20° C). Minimum cable curvature radius of 80 mm. It complies with the latest edition of the CEI 46-6 regulations, latest edition of CEI 20-11, CEI 20-37 regulations.

VCM/2D/500

62823400

Package with 500 m double-twisted cable with 0.28 mm² cross-section and 2 wires with 1.5 mm² cross-section, CPR Eca class.

Cable with external insulating PVC sheath with 8 mm diameter, yellow colour RAL 1021. Twisted pair with helix stranding at 70 mm steps. Tinned copper wires. White/blue and blue for twisted pair, red and green for power wires. Twisted pair nominal impedance 100 ohm (f=1 MHz), capacity 50 pF (at 20° C). Minimum cable curvature radius of 80 mm. It complies with the latest edition of the CEI 46-6 regulations, latest edition of CEI 20-11, CEI 20-37 regulations.

VCM/4D

62823600

Package with 150 m of cable with 3 twisted pairs with 0.28 mm² cross-section and 2 wires with 1.5 mm² cross-section, CPR Eca class.

Cable with external insulating PVC sheath with 11 mm diameter, yellow colour RAL 1021. Twisted pair with helix stranding at 70 mm steps. Tinned copper wires. Twisted pair colours in blue/blue-white, brown/brown-white, orange/orange-white and red and green for power wires. Twisted pair nominal impedance 100 ohm (f=1 MHz), capacity 50 pF (at 20° C). Minimum cable curvature radius of 150 mm. It complies with the latest edition of the CEI 46-6 regulations/latest edition of CEI 20-11/CEI 20-37.

VCM/4D/500

62823700

Package with 500 m of cable with 3 twisted pairs with 0.28 mm² cross-section and 2 wires with 1.5 mm² cross-section, CPR Eca class.

Cable with external insulating PVC sheath with 11 mm diameter, yellow colour RAL 1021. Twisted pair with helix stranding at 70 mm steps. Tinned copper wires. Twisted pair colours in blue/blue-white, brown/brown-white, orange/orange-white and red and green for power wires. Twisted pair nominal impedance 100 ohm (f=1 MHz), capacity 50 pF (at 20° C). Minimum cable curvature radius of 150 mm. It complies with the latest edition of the CEI 46-6 regulations/latest edition of CEI 20-11/CEI 20-37.

SYSTEM DEVICES

| Code | Description | |
|--------------------------------------|--|---|
| Software | | |
| PCS/XIP 62800310 | Programming software for X1, XIP and IP360 system. Software compatible with the operating systems Microsoft Windows 7, Windows 8.1 or Windows 10 or higher. Includes USB cable (4 m), 2 GB PEN DRIVE and instruction manual. System requirements: Intel® Core 2 processor or AMD Athlon®; 1.5 GHz or higher, 2 GB of RAM, minimum hard disk space 40 MB. |  |
| | | |
| Porter switchboard licences | | |
| PCS/PORTER 62800320 | Porter switchboard licences. Required for the activation of 1 porter station on PC. To be used with the XIP/PORTER software. The software, compatible with all the PCs furnished with the Windows operating system, enables the total supervision of the video entry phone system, including for large residential complexes. On the main screen, the devices are displayed with different views to aid searches: complete system, favourites, plates and cameras. The status of each device is easily identifiable by means of coloured icons (free, busy etc...). It enables the interception of calls from external units, forwarding to the internal units, door opening or turning lights on or various activations, the monitoring of the video surveillance system. | |
| Soft Receiver Licenses | | |
| LIC/SR001 62880050 | Packet with single licence for 1 PC station. Enables the use of the Soft Receiver software. | |
| LIC/SR010 62880060 | Packet with licences for 10 PC stations. Enables the use of the Soft Receiver software. | |
| LIC/SR050 62880070 | Packet with licences for 50 PC stations. Enables the use of the Soft Receiver software. | |
| LIC/SR100 62880080 | Packet with licences for 100 PC stations. Enables the use of the Soft Receiver software. | |
| Licenses for third-party devices | | |
| LIC/GST001 62880010 | License for 1 third-party device. Enables the interfacing of the device with the XIP or IP360 system. | |
| LIC/GST010 62880020 | Packet with licences for 10 third-party devices. It allows interfacing devices to XIP or IP360 systems. | |
| LIC/GST050 62880030 | Packet with licences for 50 third-party devices. It allows interfacing devices to XIP or IP360 systems. | |
| LIC/GST100 62880040 | Packet with licences for 100 third-party devices. It allows interfacing devices to XIP or IP360 systems. | |

SYSTEM DEVICES

Code Description

Licenses for mobile devices

LIC/APP001
62880090 **License for 1 mobile device.**
It allows using the video-intercom App on iOS and Android devices.

LIC/APP010
62880100 **Packet with licences for 10 stations.**
It allows using the video-intercom App on iOS and Android devices.

LIC/APP050
62880110 **Packet with licences for 50 stations.**
It allows using the video-intercom App on iOS and Android devices.

LIC/APP100
62880120 **Packet with licences for 100 stations.**
It allows using the video-intercom App on iOS and Android devices.

Server

ETI/SER XIP V3
62740121 **Server for XIP system and IP360.**
Metal container with heat sink. It centralizes all the system's video entry phone functions, the management of the porter service and the access control functions. It enables the use of porter software, branches on PC Soft-Receiver, video entry phone App and third-party devices. It is furnished with 1 RJ45 port for Ethernet 10/100/1000 BaseT networks, with 2 USB 3.0 ports for maintenance operations. The server includes 1 licence that can be used for Porter or Soft-Receiver. Supports the SIP protocol and manages up to 18 simultaneous A/V communications. 12 V DC power supply/transformer included.

ETI/MINISER XIP
62740110 **Mini-server for XIP system and IP360.**
Plastic container for installation in electrical panels (EN50022) and size 6 low DIN modules. It centralises all the system's video entry phone functions and the access control functions. It enables the use of video entry phone Apps and third-party devices (6 configurable licences already included). It is equipped with 2 RJ45 ports for Ethernet 10/100 Mb networks, which can be configured in "switch" or "dual-network" modes (enables the separation between the condominium's LAN and the apartment's LAN) and 1 USB port for exporting events logs. Supports the SIP protocol and manages up to 10 simultaneous A/V communications. Requires 12-24 V DC – 285 mA max. power supply IP30 water and dust protection rating.

SYSTEM DEVICES

Code Description

Network interfaces

ETI/XIP

62740030

LAN network interface for XIP system.

Plastic container for installation in electrical panels (EN50022) and size 8 low DIN modules. It enables the creation of video entry phone systems by means of the Ethernet network and enables the management of the access control functions. It is furnished with one rapid connector for VA/08 power units, 2 RJ45 ports in "switch" configuration for Ethernet 10/100 Mb networks and terminals for the direct connection of a external XIP unit. Availability of 3 programmable inputs, 1 mini USB port for device firmware updating and 3 LEDs for the indication of the status of the system and the communications. The gateway supports the XIP and SIP protocols and manages up to 2 simultaneous A/V communications. Requires 14-18 V DC – 390 mA max. power supply IP30 water and dust protection rating.

Access control interfaces

GCR/08

62740130

Access control keypad - video entry phone bus interface for XIP systems.

Miniaturized container for the installation on DIN rail (EN50022) on wall or in a tin box and size 1 low DIN module. It enables the connection of the keypad with proximity reader for the access control (ACMR-VR/08 and ACMR-P/08) to the XIP video entry phone system. Each interface manages a maximum of 4 keypads. Furnished with 4 dip-switches for line impedance management. Programming from PC. Requires 12-18 V DC – 70mA – mA max. power supply.

Standalone access control keypad

ACMR-VR

61800690

Numerical keypad with Mifare proximity reader in aluminium alloy for standalone access control.

Metal body in aluminium alloy ready for wall installation. It enables the access control of 2 zones in standalone operation up to a maximum of 1000 codes or proximity keys. It is furnished with 2 relay outputs for door opening, 1 input for door status detection and 2 button inputs for local opening. It requires 12-24 V AC – 110 mA max. power supply IP65 water and dust protection rating.

ACMR-P

61800710

Numerical keypad with Mifare proximity reader in plastic for standalone access control.

Plastic body ready for wall installation. It enables the access control of 2 zones in standalone operation up to a maximum of 1000 codes or proximity keys. It is furnished with 2 relay outputs for door opening, 1 input for door status detection and 2 button inputs for local opening. It requires 12-24 V AC – 110 mA max. power supply IP65 water and dust protection rating.

SYSTEM DEVICES

Code Description

Access control keypad for XIP systems

ACMR-VR/08
61800720

Numerical keypad with Mifare proximity reader in aluminium alloy for access control in XIP systems.

Metal body in aluminium alloy ready for wall installation. It enables access control of 2 zones in an XIP video entry phone system. It is furnished with 3 programmable inputs and 2 relay outputs for door opening. To be used with GCR/08 interface. It requires 12-24 V AC – 110 mA max. power supply IP65 water and dust protection rating.

ACMR-P/08
61800730

Numerical keypad with Mifare proximity reader in plastic for access control in XIP systems.

Plastic body ready for wall installation. It enables access control of 2 zones in an XIP video entry phone system. It is furnished with 3 programmable inputs and 2 relay outputs for door opening. To be used with GCR/08 interface. It requires 12-24 V AC – 110 mA max. power supply IP65 water and dust protection rating.

Kit with DIN rail

KDIN12
61800350

Kit with DIN rail and 12 module terminal cover.

KDIN8
61800480

Kit with DIN rail and 8 module terminal cover.

KDIN6
61800450

Kit with DIN rail and 6 module terminal cover.

KDIN4
61800430

Kit with DIN rail and 4 module terminal cover.
